DUO BARISTA STYLE

The fashion of baristas reveals that consumers are definitely looking for an authentic and high quality coffee experience, willing to turn to the delicacy of the best prepared coffees, hence forgetting for a while their surrounding environment.

With DUO BARISTA STYLE, Suwelack treats the coffee connoisseurs exactly with the same careful consideration as baristas do.

MICRO FINE GROUND ROASTED COFFEE

Micro fine roasted & ground coffee of the best selected origins is encapsulated inside DUO BARISTA STYLE, deep into the freeze-dried granule. This means the aroma of the micro ground coffee is well protected and unfolds only in the cup later on and is not lost earlier.

This brings the soluble coffee very much into the direction of a fresh brewed coffee: same taste and same mouth feeling. At the bottom of the cup, we even get the same little deposit as with a fresh brewed coffee!

DUO ... the closest taste to fresh brewed Coffee in a cup of instant coffee

DUO

BARISTA STYLE

DUO BARISTA STYLE provides a great potential to growth in many Coffee Sales Channels like RETAIL, HORECA or VENDING

Example: VENDING

Easier Operations & Reduced Costs Versus Whole Beans

- ✔ Less complex mechanism of the vending machine
- ✔ Lower purchasing cost of the vending machine
- ✔ No abrasion of the grinders
- ✔ No oxidation of the beans
- ✔ No coffee ground to be cleaned and no bad smells in summer.
- ✔ Higher number of cups for the same canister volume (less refills)
- ✔ Constant regular taste
- ✔ Quicker cup delivery time
  - Employer: coffee-break time will not be exceeded
  - Consumer: shorter queuing time
  - Operator: more cups can be delivered during the break time
- ✔ Operator safes time for other missions

Operation costs reduced of approximately 30 % compared to machine operating from beans, achieved via lower investment and easier maintenance, constant taste, and quickness of cup delivery.
