

INGREDIENTS

Caffeine

is a natural stimulant often found in cocoa, coffee and guarana plants. It increases alertness, boosts energy and has a positive effect on mood.

Vitamin B12

plays a key role in many aspects of health and may support energy levels, mood, red blood cell formation and bone health.

Guayusa Extract

contains various beneficial compounds linked to potential health benefits. It is rich in antioxidants and can support the energy and mood enhancing effects of caffeine.

Green Tea Extract

contains many secondary plant substances with antioxidative properties and boosts energy and focus through its compound L-theanine.

B·SYNC

PERFORM WITH EASE

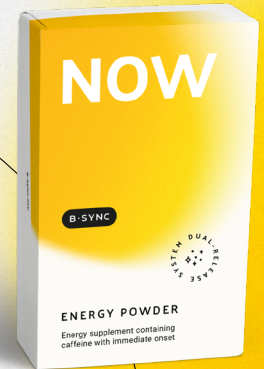

FEATURES

- ✦ Dual-release system
- ✦ Easy to use sachets
- ✦ Excellent taste-masking of bitter plant-constituents

BENEFITS

Dual-release system enables:

- ✦ Immediate energy boost, due to an ultra-rapid release system
- ✦ No caffeine crash and prolonged action, due to a sustained-release system
- ✦ Up to 5 hours of energy
- ✦ Improves concentration and focus
- ✦ Supports brain physiology

ABOUT THE PRODUCT

B-SYNC NOW is a natural energy supplement designed to lift your mood and energy levels whenever you need it most. The pellet sachet formulation comprises a well-balanced blend of the Amazonian plant-stimulant guayusa, green-tea extract and wake-promoting vitamins. Formulated as a functionally coated dual-release microgranule system it enables an ultra-rapid release of guayusa stimulants, accompanied by a sustained release of l-theanine from green-tea extract, caffeine and nootropic vitamins.

B-SYNC NOW not only gives you energy when you need it most, but also helps you to handle stressful situations with ease for up to 5 hours.

THE STORY

Various energy supplements are available on the market, but only few enable a gentle and sustainable increase in mood and energy levels. While caffeine - a xanthine alkaloid - shows excellent pro-vigilant effects, it is often associated with increased nervousness and rebound crashes, once the initial energy peak fades away.

With our energy product B-SYNC NOW, we have specifically engineered a supplement that leverages the benefits of natural caffeine, while buffering its undesired side effects. A mixture of the Amazonian plant-stimulant guayusa and green-tea, provides a synergistic blend of xanthine stimulants and l-theanine, ensuring a gentle increase in mood, vigilance and physical vigor. The dual-release formulation entails an immediate release of guayusa stimulants, accompanied by a sustained release of l-theanine and wake-promoting vitamins, specifically tailored for a great user experience.
