

Natural Alternatives
International Europe SA

The proven leader in Custom Formulation & Contract Manufacturing of nutritional supplements

With locations in Switzerland and the U.S., Natural Alternatives International Europe SA (NAIE) has a global presence to provide support to its customers on a local and global scale. We are ready to take ideas from concept to market-ready supplements in order to meet our clients' needs—and we do this all with Swiss quality.

NAIE Overview

Our Contract Manufacturing Capabilities

Custom Formulation

NAIE offers science-based guidance in designing customized nutritional products that meet our clients' needs and differentiate our product and brand in a competitive marketplace. Additionally, our scientific approach and R&D formulation knowledge help prepare your product to ensure it is safe and effective.

Manufacturing

We offer full-service production capabilities in our facilities to develop our Swiss quality and fulfill high-volume orders, with a quick turnaround. What does full production mean to NAIE?

It means we take care of everything from receiving material from our suppliers to shipping it out to our customers—wherever they are globally. In fact, NAIE alone successfully delivers 4,000 tons of food supplements per year.

Our certifications include:

swissmedic
GMP COMPLIANT

MANUFACTURER

Quality Assurance Testing

To keep our products top shelf, we have established rigorous quality control processes to guarantee that your products are beneficial and safe according to today's safety regulations. Our processes are GMP certified by Swissmedic.

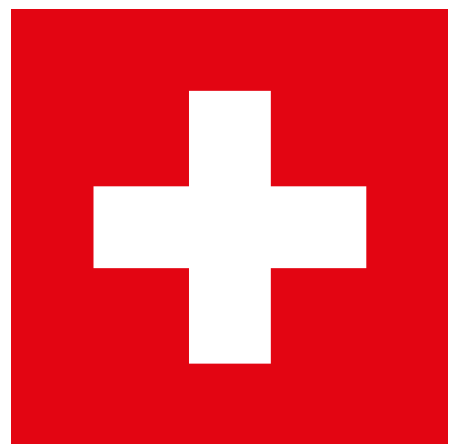

Turnkey Packaging

Moving product across **more than 40 countries** requires the best packaging process, from production to final packaging. At NAIE, our manufacturing and packaging improves time-to-market and cost-effectiveness, so your product makes it to market smoothly and efficiently.

NAIE's Strongest Points

NAIE's Strongest Points

Trusted Partners

The Swiss Company for Swiss Quality

We strive for excellence in everything we do to build lasting relationships with clients, vendors, shareholders and the environment. We achieve this by expanding beyond our clients' expectations for more than four decades.

With our global contract manufacturing expertise, we offer unrivaled scientific knowledge, unmatched quality and reliable results that meet our clients' goals. Operating under our founding principles—**honesty, integrity and trust**—we are fully committed to maintaining the standard for excellence.

At NAIE, we deliver the highest quality and most effective supplements available on the market. Our team members work to uphold our golden standards, with a focus on enriching worldwide health through excellence in nutritional science.

NAI US & NAIE have a proven track record of being recognized and certified by standard-bearing governing boards and regulatory agencies, including:

MANUFACTURER

/ NAIE's Strongest Points

Highly Automated Production

NAIE's highly automated production lines allow us to manage production costs by increasing quality output. Our full production process demonstrates how we guarantee and deliver the highest quality supplements.

Strategic Supply Chain

We start and end with the best. NAIE's team of experts specializes in selecting and purchasing only the best raw materials from around the world.

Service Partnership Options

Contract Manufacturing

Your existing products are presented to NAIE for raw material sourcing and finished good manufacturing and packaging.

We will provide our best quotation.

Ready to Develop Services*

NAIE's existing formulations and prototypes are ready to be customized based on your specific needs.

We will provide a new formulation and quotation.

Concept Development*

NAIE collaborates with you to develop your new products based on your ideas and expertise.

We will provide a new formulation, sample and quotation.

White Label

The product is sold with your label and with its documentation available. Raw material processes and packaging needs are defined.

We will provide a high quality, ready-to-market product.

CarnoSyn® Brands

Enhance your sports nutrition or health and wellness products with clinically studied, patented beta-alanine.

As the only beta-alanine to be labeled New Dietary Ingredient (NDI) status under the FDA, CarnoSyn® contains **ZERO** banned substances. Supporting the synthesis of muscle carnosine, CarnoSyn® delivers benefits for athletic performance: increased strength, enhanced endurance, faster recovery and greater mental focus.

Greener Attitude

NAIE Headquarters

- The NAIE facility utilizes wood to generate thermal power, rendering it completely green and CO2 neutral.
- NAIE produces zero CO2 emissions. Solar panels provide 100% of electricity consumption during working hours (08:00-16:00).
- NAIE separates waste, plastic, cartons, and other solids for recycling purposes.
- Packaging materials may include recyclable plastic and cardboard boxes.

NAIE Eco-Friendly Efforts For Your Products
