

**TOGETHER
FOR OUR
PLANET**

WE ARE DO IT ORGANIC

WE LOVE ORGANIC

We believe that organic food is the way to a better world. Food grown with respect for the planet. A healthy planet for generations to come. That's why 100% organic is our standard.

- We offer 1000+ organic ingredients from all over the world
- We work together with farmers in local projects
- We blend, mix and pack your private label in sustainable packaging
- We develop and supply consumer products

TOGETHER FOR OUR PLANET

Organic farming is a great way to stimulate biodiversity, build healthy soil, reduce global warming and help combat climate change. We support the planet by accelerating the transition to organic farming. Together with farmers, producers, retailers and consumers. Because only together we can make the planet healthy again.

We are involved in several local agricultural projects. In these projects we aim for quality certified organic products and for a premium quality of life for farmers. Our projects in Brazil, Bolivia, Cambodia, China, Thailand, Uganda are based on long term visions to preserve the earth for future generations.

During our 30 years of experience we have established long term relationships with suppliers and customers. We work together with a worldwide network of 180 suppliers in more than 23 countries.
