## PRODUCT OFFERING

### 1. Asiatica™

INCI Name: Asiaticoside

Specification: 95% Purity

**Description:** A powerful triterpenoid glycoside that supports in boosting collagen synthesis and skin regeneration with soothing & calming effect on skin.

### 2. Madecasio™

INCI Name: Madecassoside

Specification: 95% Purity

**Description:** A gentle yet highly effective molecule having anti-aging effect and ideal for sensitive skin

### PRE CLINICAL : Cell Line Study

Madecasio™ demonstrated in in-vitro cell line study that it exhibits anti aging effect in Human Dermal Fibroblasts (HDF) cells by modulating collagen, elastin & MMP-9 genes expression. It may help combat the signs of skin aging, such as wrinkles, loss of firmness, and elasticity.

### 3. Genica™

INCI Names: Asiatic Acid, Madecassic Acid

Specification: 95% Purity

**Description:** The aglycone forms of triterpenoids with powerful regenerative and antioxidant effects.

### 4. Total Triterpenes

INCI Name: Centella Asiatica Extract

Specification: 95% Triterpenes

**Description:** A synergistic blend of all four major triterpenoids for holistic skin health.

### Why Ambe's Centella ?

- ❶ Pristine Growing Conditions
- ❷ Sustainable & Ethical Sourcing
- ❸ Superior Phytochemical Profile
- ❹ Traceability & Transparency
