

## CLEANROOM PROJECTS

WE CREATE ENVIRONMENTS THAT UPHOLD THE HIGHEST STANDARDS OF QUALITY AND PRECISION

# CLEANROOM TECHNOLOGY

Montajes Delsaz provides integrated cleanroom solutions, ranging from complete turnkey projects or tailored approaches in architecture, equipment and furniture.

We design and construct controlled environments with the highest quality materials and finishes and the rigour of being aware of the most stringent industry standards of each industry.

## AT VANGUARD AND EXPERTISE

With over three decades of history, we have established ourselves as a benchmark in cleanroom projects, boasting more than 1.600 successful installations across 30 countries.

## OUR TEAM, GUARANTEE OF SUCCESS

A qualified technical team, dedicated to the design, management, and execution of projects, supported by our own specialized assembly staff with more than 180 professionals.

## INNOVATION AND QUALITY IN OUR PRODUCTION

Our production centre, covering more than 3.000 m<sup>2</sup>, allows us to manufacture customised products optimising costs and delivery times. Equipped with state-of-the-art technology and a strong focus on R+D, we guarantee the highest quality and efficiency in all our processes.

## BIM: THE KEY TO OUR CONSTRUCTION EXCELLENCE

With BIM methodology, we ensure precision in the design and management of information, enhancing communication and coordination across all disciplines. This approach allows us to deliver efficient results while maintaining high standards at every stage of the project.

## **CLEANROOM ARCHITECTURE**

Development of a specific construction concept for cleanrooms, with a wide range of solutions, products and materials: vertical panels, doors, ceilings, windows, profiles and flooring.

## **TURNKEY PROJECTS**

Our global service encompasses all phases of a project, from initial conceptual studies and design to engineering and construction development using BIM technology, culminating in execution and final certification.

## **AUXILIARY EQUIPMENT**

Tailor-made manufacturing of equipment designed for compliance with GMP and ISO regulations: SAS for transfers of materials (static, dynamic and decontamination), laminar air flows and weighing boots, decontamination showers (air, mist and water), RABs, fume hoods, flammable and corrosive storage, etc.

## **CLEANROOM, CLINICAL AND LABORATORY FURNITURE**

- In-house developments of customized furniture and accessories in stainless steel manufacturing.
- Phenolic resin furniture for classified changing rooms: lockers, benches, wardrobes, lockers, etc
- Furniture line for clinical and laboratory environments with functional and innovative designs and a wide variety of finishes.

## **MODULAR SOLUTIONS**

Fully portable, relocatable, autonomous and functional facilities tailored to meet specific needs in cleanrooms, biosafety laboratories, advanced therapies...

Technical rooms designed to protect IT equipment.

# COMMITTED TO A SUSTAINABLE FUTURE

At Montajes Delsaz, we embrace sustainable practices designed to minimise the environmental impact of each process. Our focus on continuous improvement and quality reflects our deep commitment to responsible and sustainable development in all our practices.
