HydroEnzymatic Extract

Adamàh[®]
Estratto IdroEnzimatico

HYDROENZYMATIC EXTRACTION

Adamàh's **EIE** HydroEnzymatic Extracts are used in the formulation of next-generation dietary supplements, combining traditional botanical knowledge with the innovative uniqueness of a proprietary extraction method, developed according to the latest research in applied biotechnology. The extraction process uses water as the solvent, together with a selected pool of plant-derived enzymes. Through enzymatic hydrolysis, this method allows the selective release of active compounds embedded in the plant cell wall, where conventional extraction methods cannot access.

This approach preserves the complete **phytoextract**, producing extracts with **high bioavailability** that enable effective results at lower dosages. Crucially, this entire process is conducted in the complete **absence of alcohol** at every stage, ensuring a pure and natural extract.

ADAMÀH® SRL

In collaboration with Phenbiox srl, a spin-off of the Department of Industrial Chemistry and Materials at the University of Bologna.

METHODOLOGY

Selective extraction through "hydrolytic" enzymes in an aqueous environment.

CHARACTERISTICS

Absence of alcohol at all stages of production | Reduced molecular size

QUALITY CONTROL

Accurate control analyses | Plant-derived enzymes | Plants from biodynamic cultivation and wild harvesting

HYDROENZYMATIC EXTRACT

100% Phytoextract | Energetic imprint of the original plant source

EIE® MASTICE DI CHIOS *Tabs*

HydroEnzymatic Extract

Food supplement 105g / 50pcs

COMPOSITION

- Vegetable glycerin
- Water
- **EIE Mastiche di Chios**
(*Pistacia lentiscus* - resina)
- Isomalt* (thickener)
- Citric acid (acidifier)

INGREDIENTS

Chios Mastic

FORMULATED TO

support digestive system regularity and normal intestinal transit

ASSOCIATIONS

EIE EMENUX | EIE COLIREF | EIE ANTELM
EIE NOCE | EIEGEM FICO | EIE PROPOLI

DIRECTIONS FOR USE

1 orosoluble lozenge (equivalent to 10 drops of EIE Chios Mastic), 2 to 4 times daily, to be dissolved in the mouth.

*Isomalt, a natural-origin sweetener, non-cariogenic with a low glycemic index, suitable for those monitoring sugar intake.

EIE® PROPOLI *Tabs*

HydroEnzymatic Extract

Food supplement 105g / 50pcs

COMPOSITION

- Vegetable glycerin
- Water
- **EIE Propoli**
(Propolis - resina)
- Isomalt* (thickener)
- Citric acid (acidifier)

INGREDIENTS

Propolis

FORMULATED TO

support the body's natural defenses and the proper functioning of the upper respiratory tract

ASSOCIATIONS

**EIE-LIP C | EIE ECHINACEA
EIE ROSA CANINA | EIE ANTELM
EIE NOCE | EIE MASTICE DI CHIOS**

DIRECTIONS FOR USE

1 orosoluble lozenge (equivalent to 10 drops of EIE Propoli), 2 to 4 times daily, to be dissolved in the mouth.

*Isomalt, a natural-origin sweetener, non-cariogenic with a low glycemic index, suitable for those monitoring sugar intake.

EIE® PIRINOL *TabS*

HydroEnzymatic Extract

Food supplement 105g / 50pcs

COMPOSITION

- Vegetable glycerin
- Water
- **EIE Echinacea**
(*Echinacea angustifolia* - radix)
- **EIE Uncaria**
(*Uncaria tomentosa* - cortex)
- **EIE Artiglio del Diavolo**
(*Harpagophytum procumbens* - radix)
- **EIE Propoli**
(*Propolis* - resina)
- Copper gluconate
- Isomalt* (thickener)
- Citric acid (acidifier)

INGREDIENTS	FORMULATED TO
Echinacea	support the body's natural defenses and the normal functioning of the upper respiratory tract
Uncaria (cat's claw)	support the body's natural defenses
Devil's claw	joint function and digestive function
Propolis	support the body's natural defenses and the normal functioning of the upper respiratory tract
ASSOCIATIONS	EIE-LIP ZINCO EIE-LIP C EIE-LIP D3 PLUS EIE-LIP OX EIE DIFENSIMM EIE FLUIRIL

DIRECTIONS FOR USE

1 orosoluble lozenge (equivalent to 10 drops of EIE Pirinol), 2 to 4 times daily, to be dissolved in the mouth.

*Isomalt, a natural-origin sweetener, non-cariogenic with a low glycemic index, suitable for those monitoring sugar intake.

EIE[®] TENSORIL *Tabs*

HydroEnzymatic Extract

Food supplement 105g / 50pcs

COMPOSITION

- Vegetable glycerin
- Water
- **EIE Biancospino**
(*Crataegus oxyacantha* - flos,folium)
- **EIE Olivo**
(*Olea europea* - fructus e folium)
- **EIE Frassino**
(*Fraxinus excelsior* - folium)
- **EIE Vischio**
(*Viscum album* - folium)
- **EIE Passiflora**
(*Passiflora incarnata* - herba c. floribus)
- Isomalt* (thickener)
- Citric acid (acidifier)

INGREDIENTS	FORMULATED TO
Hawthorn	support regular cardio-vascular function and mental well-being
Olive	normal blood pressure and proper circulation, as well as carbohydrate metabolism
Ash tree	relaxation and mental well-being
Mistletoe	fat metabolism, as well as antioxidant defenses
Maypop	support the drainage of excess body fluids
ASSOCIATIONS	EIE-LIP NATTO EIE-LIP OX EIE OLIVO

DIRECTIONS FOR USE

1 orosoluble lozenge (equivalent to 10 drops of EIE Tensoril), 2 to 4 times daily, to be dissolved in the mouth.

*Isomalt, a natural-origin sweetener, non-cariogenic with a low glycemic index, suitable for those monitoring sugar intake.

EIE[®] Inflammix Tabs

HydroEnzymatic Extract

Food supplement 105g / 50pcs

COMPOSITION

- Vegetable glycerin
- Water
- **EIE Artiglio del Diavolo**
(*Harpagophytum procumbens* - radix)
- **EIE Galanga**
(*Alpinia officinarum* - rhizoma)
- **EIE Ribes Nero**
(*Ribes nigrum* - folium)
- **EIE Canapa**
(*Cannabis sativa* - semen)
- Isomalt* (thickener)
- Citric acid (acidifier)

INGREDIENTS	FORMULATED TO
Devil's claw	support joint and digestive function
Galangal	support joint and digestive function
Blackcurrant	support joint function, and drainage of excess body fluids
ASSOCIATIONS	EIE BOSWELLIA EIE-LIP ZINCO EIE DEGEMIX EIE-LIP OX EIE ADAZYM

DIRECTIONS FOR USE

1 orosoluble lozenge (equivalent to 10 drops of EIE Inflammix), 1 to 4 times daily, to be dissolved in the mouth.

*Isomalt, a natural-origin sweetener, non-cariogenic with a low glycemic index, suitable for those monitoring sugar intake.
