Accelerate your market launch with private label products:

Core formulas

Timeless essentials that boast a rich heritage and proven reliability, making them a must for consumers

Premium formulas

Products formulated with best-in-class branded ingredients backed by scientific studies and EFSA claims

Streamlined process

1. Choose your private label formula
2. Choose your packaging format*
* Blister or other packaging solutions available
3. Customize the label with you brand*
* Own European brand available to commercialize your products
4. Delivery: Ready to launch

Comprehensive service to speed up launching timings

- Label review
- Regulatory support for your product's local registration

description of formulas

nutri- cosmetics

Radiant & Glow skin

Firmness & elasticity | Hydrating effect | Antioxidant power*

Target groups

- Ageing gracefully
- Post-workout glow

Key ingredients

- Eternalyoung® by SUANNUTRA (225 mg)

Additional ingredients

- Retinyl palmitate
- Vitamin C
- Vitamin E
- Zinc as gluconate

Dosage and administration

- 1 capsule daily.

Galenical form

- 16-20 Oblong soft gelatine capsule.

Patented botanical ingredient to help slow skin ageing from within^{1,2*}. It helps combat the intrinsic and extrinsic factors responsible for skin ageing, offering better skin moisturization, radiance, and elasticity^{1,2*}. Winner of The Nutra-Ingredients US Awards 2023.

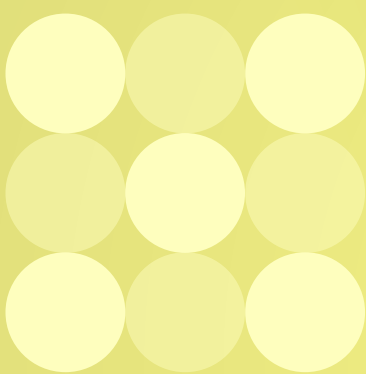

Plants: Botanical blend of Gotu Kola aerial plant extract (*Centella asiatica*), Pomegranate fruit extract (*Punica granatum*), Sweet

Orange fruit extract (*Citrus sinensis*), and Desert Ginseng herba (*Cistanche sp.*).

Supported by: 2 Published papers: 1 Double-blind, placebo-controlled clinical study¹.

Reinforced with retinyl palmitate for skin maintenance support, **key vitamins** to bring antioxidant effect, and **zinc** to help protect cells against oxidative stress*.

The formulation provides: **EFSA claims** approved and/or on-hold for vitamin A, C, E, and zinc.

nutri- cosmetics

Skin brightening

Enhance skin clarity | Helps protect against UV and environmental stressors | Skin blemish depigmenter*

Target groups

- Flawless skin advocates
- Outdoor sports enthusiasts
- Postpartum mothers

Key ingredients

- Nutroxun® by SUANNUTRA (100 mg)
- Lycopene
- Grape Seed Extract
- Beta-carotene as Vitamin A

Additional ingredients

- Vitamin C
- Vitamin E
- Selenium

Dosage and administration

- 1 capsule daily.

Galenical form

- 10-12 oval soft gelatine capsule.

Clinically proven ingredient that helps protect skin from the inside out against environmental stressors, preserving the skin structure and maintaining young and glowing skin longer^{1,2*}. Winner of The NutraIngredients US Awards 2022 and NIE 2020. Patent pending.

Plants: Botanical blend of Mediterranean Rosemary leaf (*Rosmarinus officinalis*) and Grapefruit (*Citrus paradisi*) extracts.

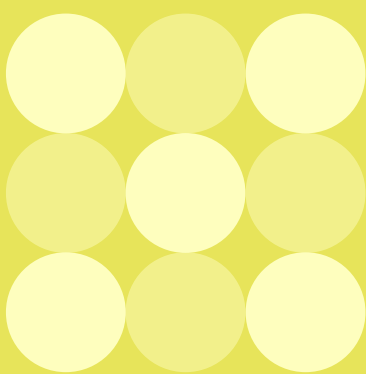

Supported by: 5 Published papers: 2 Human clinical studies¹⁻².

Approved health claims in Canada and South Korea.

Reinforced with lycopene and grape seed extracts, **key vitamins** to enhance the antioxidant effect, **vitamin A** to contribute to normal skin maintenance and cell differentiation, and **selenium** to help protect cells against oxidative stress*.

The formulation provides EFSA claims approved and/or on-hold for lycopene, vitamins, and selenium*.

nutri- cosmetics

Single Ingredient for Nutricosmetic

Strengthening hair | Slowing hair loss*

Target groups

- Supports antioxidant protection against pollution and UV radiation.
- May improve the appearance of fine lines when used consistently.
- Dull-looking skin or visible signs of fatigue.

Ingredients

- Coenzyme q10
- Flaxseed oil: ALA

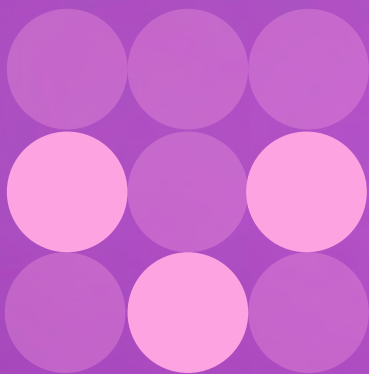

Dosage and administration

- 1 capsule daily.

Galenical form

- 5 Oval soft gelatine capsule.

women's health

Pre & Peri-menopause

Enjoy the menopause journey | Hot flashes and total bone-mineral density support | Help with sleep disturbances*

Target groups

- Menopausal women

Key ingredients

- Lifenol® by Givaudan (85 mg)
- Omega-6 fatty acid: Evening Primrose oil (10% GLA)
- Soy extract (*Glycine max* L.) (40% Isoflavones, 8% genistein, 5% daidzein)

Additional ingredients

- Vitamin D3
- Zinc as gluconate
- Copper

Dosage and administration

- 1 capsule daily.

Galenical form

- 12-16 Oval soft gelatine capsule.

Patented ingredient with a unique profile of 8-PN, designed to help relieve uncomfortable menopausal symptoms, such as hot flashes^{1,2}, while also supporting total bone mineral density³.

Plant: Common hop flowers (*Humulus lupulus* L.). Standardized to minimum >0.12% of 8-PN (8-prenilnaringenina).

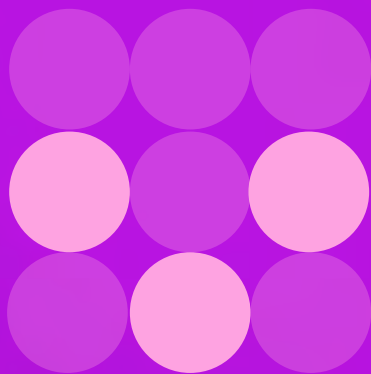

Supported by: 3 Human clinical studies¹⁻³.

Approved health claims in Canada and South Korea.

Reinforced with Humulus lupulus to help women cope with signs associated with menopause (hot flus-

hes, sweating, restlessness and irritability) for a calm and comfortable menopause; **evening primrose oil** as a source of essential fatty acids; **soy extract** as a source of isoflavones; **vitamin D** for normal absorption of calcium and phosphorus, and to contribute to the maintenance of normal bones and muscle function; **zinc** for the maintenance of normal bones, hair, nails, and skin; and **copper** to help protect cells from oxidative stress, support normal energy-yielding metabolism, and maintain normal skin pigmentation*.

The formulation provides EFSA claims approved and/or on-hold for *Humulus lupulus*, evening primrose oil, vitamin D, zinc, and copper*.

women's health

PMS support

Natural PMS alleviation with evening primrose, enhanced by a powerful blend of ingredients*

Target groups

Women in childbearing age.

Ingredients

- Evening primrose oil (10% GLA cold press)
- Borage oil (*Borago officinalis*) (20% GLA)
- Vitamin E acetate (D-alpha-tocopherol)

The formulation provides EFSA claims

approved and/or on-hold for evening primrose, borage oil, and vitamin E.

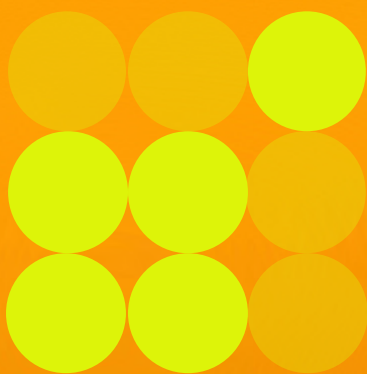

Dosage and administration

- 1 capsule daily.

Galenical form

- 10 Oval soft gelatine capsule.

men's health

Prostate health

Support prostate health and urinary discomfort naturally*

Target groups

Middle-age men.

Ingredients

- Saw Palmetto extract (*Serenoa Repens*) (320 mg)
- Vitamin D3
- Vitamin E

The formulation provides EFSA claims

approved and/or on-hold for saw palmetto, vitamin D, and vitamin E*.

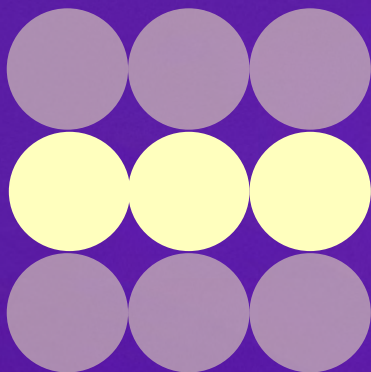

Dosage and administration

- 1 capsule daily.

Galenical form

- 8 Oval soft gelatine capsule.

mental health

Mood adaptogens

Reduce the negative effects of stress on the body | Help improve body's resistance to stress | Adaptogen*

Target groups

- Stressful lifestyles
- Low mood states

Key ingredients

- Rhodiola by MartinBauer Nutraceuticals
- Saffron extract (30 mg)

Additional ingredients

- Flaxseed oil (omega-3 ALA)
- Vitamin B12
- Vitamin B6

Dosage and administration

- 1 capsule daily.

Galenical form

- 12-16 oval soft gelatine capsule.

Premium Rhodiola

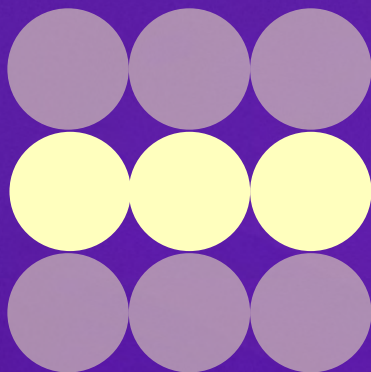

Best-in-class rhodiola ingredient sustainably grown in Western Europe. Exceptional adaptogen properties for mental and physical performance, mood support, alertness enhancement, stress resilience, and occasional stress reduction^{1-4*}.

Plant: *Rhodiola rosea* L. rhizome and roots. Standardized to minimum 3% Rosavins.

Supported by: Extensive clinical research¹⁻⁷, and specifically by an efficacy clinical study⁸.

Reinforced with saffron extract for extra mood support, **vitamin B12** to maintain a healthy Nervous System, and **vitamin B6** for a normal psychological function and fatigue reduction*. **Vegetal source of omega-3***. **Caffeine-free***.

The formulation provides EFSA claims approved and/or on-hold for rhodiola, saffron, and vitamins*.

mental health

Cognition: focus & memory

Clearer mind | Working memory | Brain performance | Wake up sharper | Memory boost*

Target groups

- Active lifestyle
- Sport performance

Key ingredients

- Cereboost™ by Givaudan (200 mg)
- Omega-3 fatty acids: EPA (50 mg) & DHA (250 mg)
- *Ginkgo Biloba* extract

Additional ingredients

- Vitamin B12
- Vitamin B3
- Zinc as Gluconate

Dosage and administration

- 1 capsule daily.

Galenical form

- 22 Oblong soft gelatine capsule.

Patented **Sustainably harvested American ginseng** fast-acting adaptogen and nootropic with positive effect in just one hour*. It is first nootropic addressing mental fatigue^{1-4*}. Gut-brain axis modulator^{4-7*}. **Caffeine-free***.

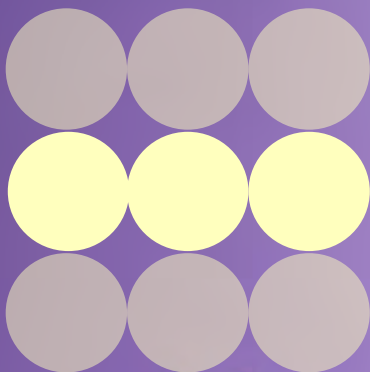

Plant: American ginseng secondary roots (tails) (*Panax quinquefolius*). Standardized to 10-12% ginsenosides.

Supported by: 5 Studies (4 human clinical studies)¹⁻⁴.

Approved health claims in Canada and Japan.

Reinforced with DHA for normal brain function support, *Ginkgo Biloba* to help maintain mental well-being, preserve memory and support cognitive function, and **zinc** to help protect cells against oxidative stress, along with **vitamins B3 and B12** for normal psychological function and fatigue reduction*. Caffeine-free*

The formulation provides EFSA claims approved and/or on-hold for DHA, *Ginkgo Biloba*, vitamins, and zinc.

mental health

Focus + Memory + Mood

Induce relaxation and mind calm | Help improve body's resistance to stress | Adaptogen*

Target groups

- Stressful lifestyles
- Busy professionals
- Sport performance
- Low mood states

Ingredients

Formula Mood Adaptogen Basic

- *Rhodiola extract*
- *Vitamin B12*
- *Vitamin B6*
- *Flaxseed oil (omega-3 ALA)*

Formula Focus and Memory Basic

- *Omega 3 fatty acids: EPA & DHA*
- *Vitamin B12*
- *Vitamin B3*
- *Zinc*
- *Ginkgo Biloba extract*

The formulation provides EFSA claims

approved and/or on-hold for Rhodiola extract, Ginkgo Biloba extract, Vitamins and Minerals.

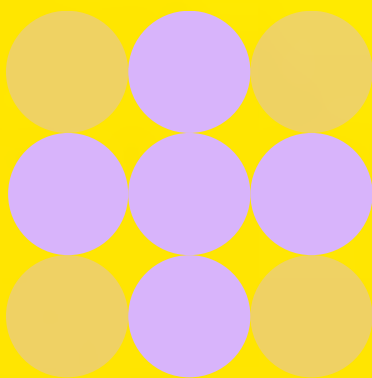

Dosage and administration

- 1 capsule daily.

Galenical form

- Formula Mood Adaptogen Basic
12 oval soft gelatin capsule.
- Formula Focus and Memory Basic
16 oblong soft gelatin capsule.

heart health

Cardiovascular care

Holistic care of the Cardiovascular System to feel good*

Target groups
Healthy ageing.

Key ingredients

- FBG22® by Fermedics® (80 mg)
- Omega-3 fatty acids: EPA (50 mg) & DHA (250 mg)

Additional ingredients

- Coenzyme Q10 (ubiquinone)
- Vitamin E

Dosage and administration

- 1 capsule daily.

Galenical form

- 12 Oval soft gelatine capsule.

FBG22®

The traditional black garlic extract elevated to the next level for obtaining an excellent SAC content and bioavailability through a novel and proprietary triple fermentation process. SAC has proven its benefits in multiple important parameters linked to general cardiovascular health^{1-11*}.

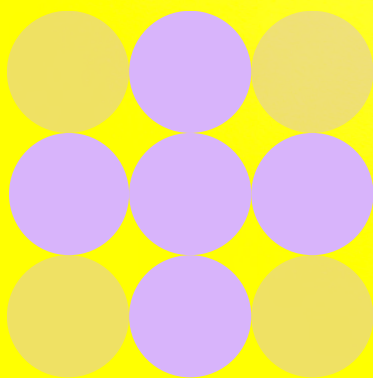

Plant: Black garlic (*Allium sativum*). Standardized to 1% S-allyl cysteine (SAC).

Supported by: Scientific studies and reviews¹⁻¹¹.

Reinforced with EPA and DHA to contribute to the normal function of the heart, **black garlic** supports heart health and helps maintain homocysteine levels, while **vitamin E** protects cells from oxidative stress*.

The formulation provides EFSA claims approved and/or on-hold for black garlic, EPA, DHA, saffron, and vitamins*.

heart health

Single-ingredient for Heart Health

Target groups

Healthy ageing.

Omega 3 content

- Omega-3 fatty acids (EPA & DHA)

The formulation provides EFSA claims approved and/or on-hold for:

- Omega-3 fatty acids (EPA & DHA)
- Vitamins B1, B6, B9, B12

Dosage and administration

- 1 capsule daily.

general wellness & longevity

Secret to longevity

The art of living | Cellular health | Immunity Cognitive support | Macular care*

Target groups

Health-conscious adults.

Key ingredients

- Fermagalus™ by Fermedics (180 mg)
- Omega-3 fatty acids: DHA (250 mg)
- Lutein
- Zeaxanthin

Additional ingredients

- Vitamin B12
- Zinc as gluconate

Dosage and administration

- 1 capsule daily.

Galenical form

- 20 Oblong soft gelatine capsule.

Fermagalus®

Empowered by astragalus root, this ingredient features improved bioavailability and bioactivity of the key active metabolites and antioxidant effect, thanks to its proprietary fermentation process. These key actives have been related to enhanced regenerative capacity in aged cells -through telomerase activation-, healthy immune response, and cognitive support, contributing to neuroprotection and healthy ageing^{1-19*}. Post-biotic.

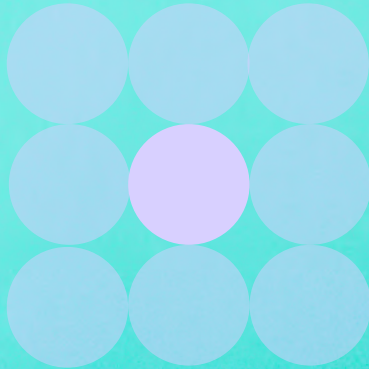

Plant: Fermented Astragalus root (*Astragalus membranaceus*). Standardized to > 10% astragalus polysaccharides, > 0.2% cycloastragenol, > 0.05% calycosin, > 3 billion CFU/g post-biotics. Ratio 25:1.

Supported by: Scientific studies¹⁰⁻¹⁷.

Reinforced with DHA for normal brain function support and maintenance of normal eye health, **lutein and zeaxanthin**, **vitamin B12** for normal immune system function and cell division support, and **zinc** to contribute to normal DNA synthesis*.

The formulation provides EFSA claims approved and/or on-hold for DHA, and vitamin B12, and zinc.

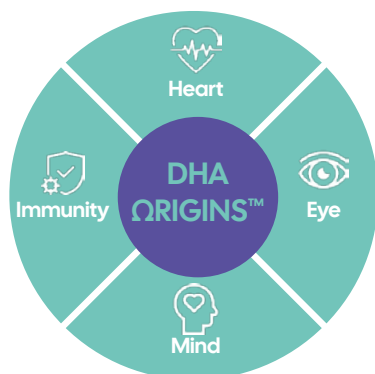

general wellness & longevity

Sustainably sourced Omega-3

Good for The Earth | Good for Health*

Add key ingredients to tailor your formula

Key ingredient

- DHA ΩRIGINS™ 550-O by Fermentalg® (250 mg of DHA per softgel).

Microalgae

- Proprietary *Schizochytrium* sp. FCC-3204 strain.

The formulation provides EFSA claims approved and/or on-hold for brain function and normal vision*.

Dosage and administration

- 1 capsule daily.

Galenical form

- 9 Oval soft gelatine capsule.

A premium, patented, and clean source of omega-3 from a unique microalgae strain. It contains the highest concentration of native microalgae DHA in triglyceride (TG) form, on the market¹.

Good for Earth:

- Microalgae are the most sustainable source of Omega-3¹.
- Locally sourced from Europe. Low carbon footprint.
- No impact on oceans ecosystem
- Non-GMO.
- Naturally concentrated in DHA, avoiding over-processing.
- Solvent-free extraction process.

Good for health*:

- Free from pollutants, heavy metals, pesticides, and microplastics[†].
- Excellent bio-assimilation thanks to its natural content in DHA TG form.
- Naturally contains β-carotene and astaxanthin.
- Superior organoleptic properties.

Supported by: Extensive human clinical studies²⁻⁴⁴.

Approved health claims in Canada.

(†) Fermentalg's DHA is produced in closed tanks, controlling exposure to environmental contaminants and guarantying product quality.
