

WRIGHTPRO®

Custom Protein Blends

Precision protein formulations designed to meet market demands

For today's consumers, protein is expected — but they're looking for products that do more. They want solutions tailored to their specific health and wellness goals. Achieving protein goals in practical, attainable ways is central to modern health and wellness. That's why we created **WrightPro™ — our line of custom protein blends delivering adaptable solutions** to support GLP-1 users, weight management, active lifestyles, women's health, and a wide range of wellness needs. Every formulation can be customized to address emerging trends and consumer-driven demands.

Protein Solutions That Perform

- **CUSTOM FORMULATION** – Custom protein systems developed to align with your product goals, featuring plant-based, animal-based, or hybrid protein sources.
- **SUSTAINED ENERGY & SATIETY** – Protein-forward solutions formulated to support longer-lasting energy, fullness, and consumer satisfaction.
- **SUPERIOR TASTE & TEXTURE** – Custom flavor systems and sweetener blends deliver a smooth texture, great taste, and clean finish.
- **TARGETED WELLNESS SUPPORT** – Functional ingredients designed to support specific wellness goals, including hydration, digestive health, active lifestyles, satiety, and more.
- **VALUE-ADDED NUTRITION** – Enhance your formulation with vitamins, minerals, fiber, and other nutrients that help create differentiated products.
