

REDORANGE COMPLEX™

THE NATURAL SUPPORT TO MAINTAIN HEALTHY SKIN WITH A BEAUTY FROM WITHIN APPROACH

RED ORANGE COMPLEX™ is a standardized powder extract obtained from the juice of three pigmented (Moro, Tarocco and Sanguinello) varieties of Sicilian blood orange grown in a particular area surrounding Europe's most active volcano, Mt. Etna.

 COMPOSITION	RED ORANGE COMPLEX™ % (W/W)
Anthocyanins (as cyanidin-3-glucoside)	2.8 - 3.2
Hydroxycinnamic acids (caffeic, cumaric, sinapic, ferulic, cinnamic acids)	1.8 - 2.2
Flavanones (hesperidin, narirutin)	8.5 - 9.5
Ascorbic acid	5.5 - 6.5

SUGGESTED DOSAGE: 100MG/DAY

Thanks to the phenolic compounds (anthocyanins, flavanones, and hydroxycinnamic acids) and ascorbic acid, **RED ORANGE COMPLEX™** it has a multi-benefit potential.

Benefits

DECREASES OXIDATIVE
STRESS

SUPPORTS SKIN HEALTH
DURING SUMMER

SUPPORTS SKIN HEALTH
DURING AGING

SUPPORTS WELL-BEING
IN ELDERLY

RELIEF FROM MENOPAUSAL
SYMPTOMS

Red oranges (Moro, Tarocco and Sanguinello) are varieties of oranges with a bright orange peel, a distinct deep red flesh and a sweet taste. The trees grow exclusively in a certain area around the Etna volcano in Sicily (Italy). The orange juice could be considered a co-product of the agro-alimentary industry where the oranges no more appealing to the food market are squeezed to produce the juice.

Mechanism of action: 8 clinical studies

DECREASES OXIDATIVE STRESS in subjects with compromised antioxidant defences such as athletes, scuba divers, diabetics, smokers and subject exposed to air-pollution.

It is able to decrease oxidative stress counteracting ROS (Reactive Oxygen Species) and other reactive free radicals, to restore glutathione levels and thus protect against short and long-term health consequences in different population targets with compromised antioxidant defences.

FIGHTS THE SKIN AGING SIGNS IN MEN AND WOMEN AND IMPROVES WELL-BEING IN ELDERLY

It is able to improve the quality of life in elderly men and women and the skin aging signs such as moisturization, elasticity, distensibility and radiance; It reduces the wrinkle depth.

PROTECTS THE SKIN AND HELPS TO MAINTAIN HEALTHY SKIN IN MEN AND WOMEN

It is able to support the skin response to UV light and to reduce the appearance of photoaging, control the hyperpigmentation (melanin production) and improve the homogeneous tanning and skin brightening.

RELIEF FROM MENOPAUSAL SYMPTOMS

It is able to relieve women from the typical menopausal symptoms linked to hot flashes, sweating, mood, sleep as well as physical and sexual discomfort.

RED ORANGE COMPLEX™
was tested on Caucasian
and Asian People

CLAIMING OUR BEAUTY FROM WITHIN

Contributes to maintaining **skin hydration** for a softer and smoother appearance

Supports **skin elasticity**, helping to maintain a firmer appearance

Contributes to maintaining **skin radiance**

Helps reduce the appearance of wrinkles, contributing to smoother and **younger-looking skin**

Helps **reduce signs of skin fatigue**, supporting a fresher and more revitalised appearance

Efficacy demonstrated through **clinical and instrumental studies** for visible and measurable results
