

"Quality means to us,  
Doing it right  
when no one is  
looking"

# Maahir —FOODS—

BRC A GRADE, KOSHER and HALAL Certified Producer

Maahir Foods journey began in 2016 to produce High Quality Dehydrated Onion, Garlic, Dehydrated Vegetables, Spices and Herbs,

Maahir Foods is Certified with GFSI Standards, BRC A GRADE, FSSAI, Kosher and Halal, We are equipped with our fully automated and highly sophisticated production facility,

Our management having inherited Dehydration industrial experience over Three decades and personal professional experience of over a decade, Maahir Foods Became the well-known name in the dehydrated onion and garlic market,

Maahir Foods emerged as trusted and reliable source of Dehydrated Products from India since our inception time, and adds value and reliability to our business partners by standardizing the quality and customizing the solutions,

## Operational Excellence

At Maahir Foods, we believe in our business model in-cooperation with our quality control procedures together with processing tuning at all stage from Raw material to our production capabilities, Our efficient management systems optimize our cost structure and ensure best quality products.

We have a competent quality control team having over a decade of "tech-know-how" to the each steps of process, hence we stay quality focused company at all stages of business, that keeps us committed to maintain quality and food safety at all steps of dehydration from procurement to dispatch of the finished products.

## Quality Excellence

"Quality means to us doing right when no one is looking" is our ethical working style, with this Quality became habit, not and act, more over we have established a pre dehydration procedure to remove residual of pesticides and pathogens which might carry forwarded from farm,

At the final cleaning and processing stage through out the process we uses controlled air atmosphere that ensures bacterial free environments for the finish goods processing, This keeps our food standards updated to satisfy the ever increasing demand of quality products in international markets.
