

Bringing color to your products

we offers a wide range of unique natural color compounds from select sources of vegetables, fruits and other edible natural resources. All our colors are safely processed to protect the natural color properties present in the raw materials keeping in mind our fundamental concept of green and clean labels. With dedicated botanicals manufacturing facility, independent color development center, formulation expertise, global distribution network, we are always the right partner for your coloring solutions.

INDICATION	COLOR IMPRESSION	PIGMENT	SOURCE	FORM	E.NO	SOLUBILITY	PH RANGE	HEAT STABILITY	LIGHT STABILITY	ACID STABILITY
