IN HERBAL HEALTH CARE

“ WE CONTINUOUSLY UPDATE OUR MANUFACTURING CAPABILITIES TO KEEP PACE WITH TECHNOLOGICAL ADVANCEMENTS ”

PRAKRUTI PRODUCTS PVT LTD

From 1998, Prakruti Products Pvt Ltd specializes in the manufacture of standardized herbal extracts, phytochemicals, organic herbal extracts and nutraceutical ingredients for leading dietary / food supplement manufacturers around the world.

With 20 years of herbal extraction and formulation excellency; Prakruti is pioneer in offering certified organic herbs, organic herbal powders and certified organic herbal extracts. Prakruti is certified in compliance with the U.S. National Organic Program (NOP), National Program for Organic Production (NPOP) and EU organic certified for processing of herbs and herbal extracts.

Staying true to our name, we partner with hundreds of farmers family in southern India to deliver botanical extracts of the highest quality. We go to great lengths to establish personal relationships with the farmers and make sure they meet high standards of quality and safety.

The herbal extraction activity of Prakruti Products is carried out in Ankola, Karnataka, where the company has a very large factory based on an 80,000 square feet-area, covering both nutraceutical formulation and herbal extraction facility (12 MT of herbal processing per day).

Prakruti Products owns and operates one of the largest continuous extraction plants in Tumkur, Karnataka. This continuous extraction plant ensures consistent quality with a capacity of 12 MT of herbal processing per day. Totally Prakruti can handle 24 MT of herbal processing / day. Apart from our expertise in sourcing high-quality organic ingredients, we have an experienced R&D team that will help you develop any herbal product and extracts. Prakruti Products R&D center is recognized by DSIR (Department of Scientific and Industrial Research, Government of India)

QUALITY

Our Strong in-house quality control team has successfully developed a series of rapid and effective analytical methods. Our most advanced laboratory facility enable us to control all final products with accurate levels of active marker compounds and consistent chemical profiles.

Prakruti Quality Control (QC) is having state-of-the-art FSSAI and GMP approved laboratory. Lab applies a high degree of safety in herbal extracts with respect to residual solvents, pesticide residue and heavy metal, thus complying limits as per international guidelines.

The QC laboratory is equipped with all the necessary equipment

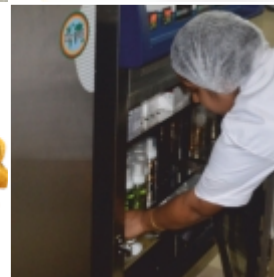

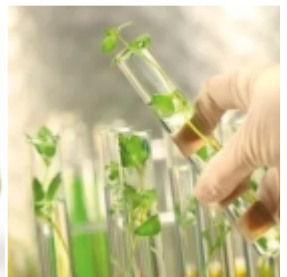

- ✔ HPLCs for in-process testing, final product testing
- ✔ GC with head space to monitor residual solvents
- ✔ Microbial Analysis Capabilities
- ✔ We frequently use third party testing to guarantee accuracy.
- ✔ A robust QA system ensures there are no deviations from set quality.
