# ORGANIC PORTFOLIO

It was quite naturally that Prova, as experts in sweet brown flavourings since 1946, was one of the first European flavour houses to offer organic flavouring solutions.

Prova's flavourists created a comprehensive and original range that is both organic and/or Fairtrade certified.

Combining Prova expertise in terms of technology and formulation, this range of extracts and natural flavours, which is available in liquid and powder form, fully meets the market's demand for naturalness, traceability and sustainable development.
