range

The consumption of organic products is growing rapidly worldwide as consumers are looking for clean-label products. They want to take responsibility for a sustainable and ecological environment. Prolactal, based in the Alpine region of Austria, is the world market leader in the field of organic milk and whey powder for infant nutrition. Our core business is the sustainable fractionation of milk and its by-products such as whey into their valuable components. Key products include milk and whey powders, demineralized whey, whey concentrate and lactose. Together with Prolactal, you can benefit with tailor-made formulation and strengthen the products functional and nutritional profile.
