

DavosLife E3 Tocotrienols

Real People, Real Results

Natural Source, Natural Ingredient

I am so excited as my skin has really improved so much and a notable decrease in the melasma / hyperpigmentation in just two months, and I am feeling really great.

Ms. Yvette from South Africa

Testimonial from Ms. Yvette Overberg

I have been on a journey for the **past 8 to 10 years** trying to get rid of **hyperpigmentation / melasma** due to many years of sun exposure while road running and also now being post menopausal. I have **tried various face creams and treatments but without significant results.**

I have to say I was really excited when I came across the DavosLife Tocotrienols and Revive products, as it is everything I could ever wish for. I am extremely grateful to DavosLife for allowing me to try these 2 products and have been using it in combination for 2 months now.

Before

(14th December 2021)

After

DavosLife E3
Softgel & Skincare
(7th February 2022)

Protocol as follows :

- ✔ 1 x DavosLife E3 Complete Tocotrienols morning and midday.
- ✔ Cleansing and applying DavosLife Revive Serum, Revive Moisturising Cream and Revive Bio Renewal Face Oil morning and night as per product instructions.
- ✔ Sunblock daily and reapplied when necessary.
- ✔ I also use Sweet Almond Oil at night for added moisture if needed, after the Revive products have penetrated the skin.
- ✔ I wear a hat whenever I am outdoors and try to avoid the sun as much as possible.

“I am most definitely going to continue my journey with DavosLife and using these high quality products as I firmly believe that it really works. The proof is in the evaluation photos taken thus far.”
