CERT. NO.: HACCP 00205

Non-GMO Source

MS1500:2009  
1 073 - 12 / 2012

## 2004

One of the world's largest Tocotrienols manufacturers, Davos Life Science Pte Ltd was founded in Singapore.

## FROM DAVOS LIFE SCIENCE TO KLK OLEO

## 2005-2010

Kuala Lumpur Kepong Berhad ("KLK") began investing in Davos Life Science, bringing it into the KLK OLEO family.

KLK is a leading international plantations group listed on Bursa Malaysia since 1974. KLK has a market capitalisation of RM 26.6 billion (USD 6.4 billion) and a global workforce of 40,000 people.

KLK OLEO is a global oleochemicals producer with 15 manufacturing sites, located in Malaysia, Indonesia, China, Switzerland, Germany, Netherlands, Belgium and Switzerland.

## 2012

The Singapore operation was relocated to Westport, Malaysia, and production capacity has been expanded to meet the growing market demand for phytonutrients.

The relocation is strategic in enabling Davos Life Science to capitalise on the integration and supply chain of the group for its feedstock.

## 2018

We diversify our phytonutrient offerings to include Biocarotene, a colour additive of natural origin.

## TODAY

Delivering high quality and safe products are our commitments. DavosLife E3 is a brand you can trust.
