

Customised Extrudates and Texturised Plant Proteins

Shaping the **Future** of **Food** Together.

We make your food ideas come true!

Allow us to introduce ourselves. We are Erbacher Food Intelligence. With our refined **extrusion technology** and well-founded expertise we make food dreams come true. In the field of custom **extrudates** and **textured plant proteins**, we develop unique high-quality, tailor-made product solutions in bulk packaging such as bulk cartons or big bags for example, a variety of **ingredients** for **further processing**. Or **products** for your **own brand** like crispy snacks or breakfast cereals. **Tailored to your vision!**

The possibilities? Endless! Whether it's organic cocoa balls, pink crispy hearts, crunchy spelt flakes, chocolate-coated dragees for dairy products, customised plant-based meat and fish alternatives – we bring to life what you want and how you want it. And as a **strong partner** we stand by your side from the initial idea to the final product. Our recipe for success? Highest quality, decades of **expertise**, maximum **flexibility** and a passion for great ideas!

Individual according to your Wishes

We offer you a wide range of possibilities to develop your product according to your requirements. This includes not only the choice of **raw materials, shape and texture**, but also the **qualities** of your product. In our overview you will find exactly the right quality for your product, which can of course also be combined.

Therefore **Erbacher** **Food Intelligence.**

Customised Products

- Develop your **individual customised product** with us.
- Set **innovative trends** in the food industry.
- We offer you **safe products** of the **best quality**.

Working Together in Partnership

- Together, at **equal footing** in an open exchange.
- Be part of the **development** of your product **live** during "Fast Prototyping".
- Production in comparably **smaller quantities**.

Everything from a Single Source

- From **development** to **production** to **logistics**.
- We are more than a service provider - we are your **strategic partner** and **enabler** of your product idea.

Our Promise of Quality

We do not only fulfill your individual product wishes, but also the **highest safety** and **quality requirements**. From the selection of our raw materials, which are as regional as possible, to in-house production and the finished product. Each area is subject to certified standards and strict quality controls, including our own accredited laboratory. In this way, we offer you the best and safest quality for your product.

Our high quality standards are regularly confirmed by independent institutes and certifications:

Sustainability and Responsibility

For us, sustainability means above all taking **responsibility** for our **customers, society** and the **environment**. We are therefore continuously committed to environmental and social issues, e.g. with:

- **eco-certified environmental management systems according to DIN ISO 14001**
- **climate-neutral production process**
- **use of electricity from 100% regenerative sources**
- **climate and forest conservation projects in Tanzania**

We are your **Partner.**

Our Competences

For over 30 years we have been active as a contract manufacturer for extruded food products. The **technology of extrusion** is not only an **efficient** and **careful manufacturing process**, but also allows a very **flexible** and **individual product design** in taste color, shape, texture and application areas. Numerous well-known brand manufacturers and innovative start-ups are among our customers and benefit from our expertise and experience in extrusion technology.

Extrusion - the Individual Solution for your Products.
