MATCO FOODS CORN DIVISION:

Matco Foods Corn Division launched its range of Starches and Animal Nutrition products in 2022. Matco brings its deep expertise in grain procurement and handling, processing excellence and customer first sales approach to corn products. The state-of-the-art plant has been commissioned with the best technology and expertise from Asia, USA and Europe.

TEXTILE:

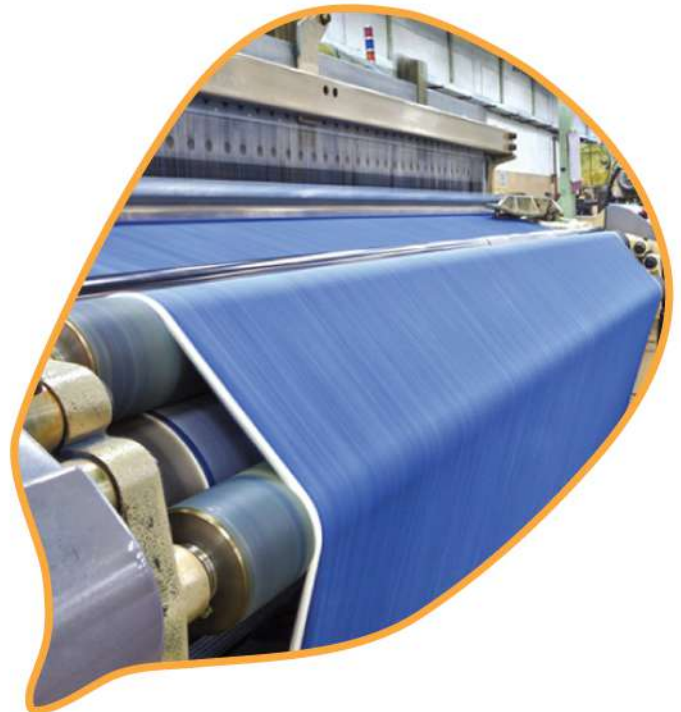

MAT - TEX range of starches are especially formulated and produced for unique applications in the textile industry. **MAT - TEX** starches are performance efficient and tailored to the needs of the textile industry with multiple grades produced from Yellow Dent Corn and Waxy Corn as either Un-Modified or Modified starches.

BENEFITS:

- Imparts higher tensile strength to fiber yarns to improve warping and sizing
- Improves yarn to yarn as well as yarn to loom abrasion resistance on high-speed weaving machines
- Excellent fiber to fiber binding due to higher penetration
- Protective glazed film formation on thread with enhanced adhesion of starch
- Efficient de-sizing of fabric
- High quality fabric finishing
- Robust thickener for dye pastes in printing applications

APPLICATIONS:

Warping	✓
Sizing	✓
Finishing	✓
Denim	✓
Printing	✓

PAPER & CORRUGATED BOARD:

MAT - COR range of starches are especially formulated and produced for unique applications in the Paper & Corrugated Board industry. **MAT - COR** starches are performance efficient and tailored to the needs of the Paper & Corrugated Board industry with multiple grades produced from Yellow Dent Corn and Waxy Corn as either Un-Modified or Modified starches.

BENEFITS:

- Enhances strength of cardboard boxes
- Superior and long-lasting adhesion of paper ply in cardboard
- Premium printing on corrugated sheet surface
- Excellent heat resistance

APPLICATIONS:

Papermaking	✓
Adhesive Glue	✓
Corrugated Sheet & Board	✓
Paper Tube	✓
Paper Cone	✓
Paper Sack	✓

FOOD & BEVERAGE:

MAT - BLANC range of food grade starches are especially formulated and produced for unique applications in the Food & Beverage industry. MAT - BLANC starches are performance efficient and tailored to the needs of the Food & Beverage industry with multiple grades produced from Yellow Dent Corn, White Corn and Waxy Corn as either Un-Modified or Modified starches.

BENEFITS:

- Superior performance as thickening agent
- Strong gelling capabilities with high transparency
- Efficient stabilizer characteristics
- Unique texture imparting properties
- Flavorless and odorless to use as ingredient

APPLICATIONS:

Custard Powder	✓
Recipe Mixes	✓
Sauces and Condiments	✓
Desserts & Soups	✓
Snacks	✓
Noodles & Crackers	✓

PHARMACEUTICAL:

MAT – PHARM range of starches are especially formulated and produced for unique applications in the pharmaceutical industry. **MAT – PHARM** starches are performance efficient and tailored to the needs of the pharmaceutical industry with multiple grades produced from Yellow Dent Corn, White Corn and Waxy Corn as either Un-Modified or Modified starches.

BENEFITS:

- Highly refined ingredient packed in hygienic conditions
- Strong binding capabilities
- Efficient diluent properties
- Effective disintegrant for required results

APPLICATIONS:

Swallowable tablets	✓
Hard capsules	✓
Nutraceutical mixes	✓

INDUSTRIAL ALL PURPOSE:

MAT - AP All Purpose industrial grade corn starch is a versatile product and well suited to a wide range of applications across multiple industries.

BENEFITS :

- Guaranteed and consistent quality
- High starch content
- Long shelf-life stability
- Versatile and multiple applications
- Sustainable and cost-effective solution

APPLICATIONS:

Adhesives	✓
Oil well drilling	✓
Paints	✓
Ceramics	✓
Construction Materials	✓
Lubricating Agents	✓
Detergents	✓

ANIMAL NUTRITION:

Matco Foods Corn Division's range of corn-based Animal Nutrition products provide feed for the livestock and poultry industry. These nutrient rich products are especially tailored to the requirements of livestock and poultry. We offer MAT-CORN FIBER, MAT-FEED (27% Gluten) and MAT-GOLD MEAL (60% Gluten) products.

BENEFITS:

- Excellent source of Protein, Carbohydrates, Fat and Fiber
- Essential amino acids and vitamins for energy
- Easily digestible for animals

APPLICATIONS:

Poultry Feed	✓
Livestock Feed	✓

COMMITMENT TO SUSTAINABILITY:

EFFLUENT TREATMENT PLANT

Our Effluent Treatment Plant sets the green standard, limiting the impact on the environment.

SOLAR PANELS

Our solar panels drive sustainability, reducing our environmental impact & utilizing clean energy.

STATE OF ART BOILER

Our state-of-the-art boiler efficiently controls emissions, while utilizing sustainable biomass as a clean energy source.
