

4 reasons why you need vitamin K2 MK-7

1

Vitamin K2 is an essential fat-soluble vitamin

Like all vitamins, it must be obtained from the diet to enable your body to function as it should.

2

Today our diets do not provide enough vitamin K2

Vitamin K2 (as well as D3) needs to be supplemented in the diet.

→ Calcium →

3

Vitamin K2 directs calcium to the right places

K2 MK-7 helps bind calcium into bones for strong bone development and directs free calcium away from the arteries to maintain healthy circulation.

4

Vitamin K2 MK-7 is the best form of vitamin K with a half-life of 72 hrs

K2 MK-7 exhibits the best bioavailability and longest half-life among all K vitamins. K2 MK-7 efficiently activates:

- Osteocalcin for bone building
- Matrix Gla protein for arterial decalcification
