About Us

Ecuadorian Rainforest, LLC, was founded in 1997 by Ecuadorian native Marlene Hurtado-Siegel. The company is a wholesale bulk raw materials supplier of fruit, herb, marine, spice and vegetable nutraceutical ingredient powders and powdered extracts **from South America and beyond.**

For **over 25 years**, Ecuadorian Rainforest has provided quality tested and competitively priced **wholesale nutraceutical ingredients** to the beauty, health and nutritional industry.

Quality Control

It's one thing to just meet state and federal regulations when providing ingredients, but when an ingredient supplier **exceeds those standards** and imposes even higher ones on its products that is a sign of a company who cares. Ecuadorian Rainforest **takes extra steps** to ensure that our independent third-party laboratory-tested ingredients you want meet our standards as well as your own.

Our testing includes **High-Performance Thin Layer Chromatography** testing, weekly testing for **microbial pathogens** and **heavy metals**, **High Pressure Liquid Chromatography**, and many more.
