FORMULATION AND DESIGN STUDIES

EXPERT FORMULATION OF FOOD SUPPLEMENTS AND COSMETIC PRODUCTS

Hekim Pharmaceuticals (Hekim Ilac) is a Turkish private label contract manufacturer that provides highly skilled and scientific expertise in the formulation of health products in its laboratories. We believe science is at the heart of healthcare innovation.

SPECIAL SERVICES FOR CREATIVE INNOVATION

Our experts consist of a team of professionals who love to be challenged and combine all our talents to produce creative designs for innovative projects. We also provide custom formulation and contract manufacturing services. If you would like to know how Hekim Pharmaceuticals (Hekim Ilac) can help you move your projects forward, please feel free to contact us.

THE EXPERT LABORATORY FOR SMART FORMULAS

Our team of PhD pharmacists and chemical and formulation engineers develop reliable product formulations for compatible, safe, and efficient personal care and beauty products. In addition to creating specially designed formulas, Hekim Pharmaceuticals (Hekim Ilac), develops its own innovative ingredients and formulas that can be customized to meet your needs. Our unique scientific approach allows us to present our diverse skills in formulations.

Production

HIGH PERFORMANCE PERSONALIZED FORMULA

Hekim Pharmaceuticals (Hekim Ilac) has high performance, customizable formulas with innovative active ingredients for skin care applications and nutritional supplements for a wide range of children and adults. We provide trends that will help your product meet consumer expectations. We create successful formulas with our expertise, experience and strong bonds of the performance of our dynamic team. We develop original preparations and combine specific innovative and functional ingredients to create the formula you are looking for. Our experts combine the systematic use of targeted ingredients with advanced technological research on specific active ingredients for innovative and efficient products.

SPECIAL PRODUCT FORMULATION SERVICES ACCORDING TO YOUR REQUEST

If you are looking for a cutting edge formulation specialist for your products, Hekim Pharmaceuticals (Hekim Ilac) can help. Our experts strictly follow and respect your list of ingredients and properties to create the formula with the desired effect, direction and texture to suit your target market. Our scientists design your formula, objectifying the ingredients used to comply with the formula and regulations. Full scientific proof and sensory evaluation are at the center of our client partners. Your on-demand graphic and design department is the biggest support of our customers in the most accurate and beautiful packaging design.

PRODUCT REPORTING, LICENCING AND PRODUCT REGULATIONS

Creating a new product can be difficult when it comes to finding all relevant regulations, using the necessary paperwork, and performing quality tests.

RECOMMENDATIONS FOR APPLICABLE LEGISLATION

Our regulatory experts respect your company's content and packaging requirements and also help you determine;

R&D quality tests required to verify the accuracy and compability of the product, criteria for performing the safety assessment of your product, evaluation of the conformity of your product before marketing, and all other mandatory tests.

DELIVERY

The finished products are delivered from our factory (Ex Work) after the remaining payment is made.

Innovation is our theme, our goal is to be a pioneer in its field. Hekim Pharmaceuticals (Hekim Ilac) laboratories continue our ongoing R&D studies, as can be seen with the diversity of our product range, always alongside technology. With the inspiration and support it receives from nature, Hekim Pharmaceuticals (Hekim Ilac) laboratories make a difference with their product formulations. Our expert team keeps up with the latest healthcare innovations, with ongoing competitive intelligence in raw materials. Our strong formulation team offers you formulas suitable for your needs with its proactive stance.

Raw material research, formulation development, physicochemical characterization of the most active substances and ingredients, compliance with regulations of ingredients, activities, and formulations in the export market, traceability at every stage of the production process, transfer of industrial production in cooperation with production teams, efficacy tests on products, interpretation of tests and study results (stability), efficacy, tolerability, microbiology, etc.)

We believe the effectiveness of formulations must be proven before making any claims. We develop for you turnkey products and innovative formulations with scientifically proven actions. Send us your specifications and constraints and we'll make a unique offer for your brand.

FILLING
Hekim Pharmaceuticals (Hekim Ilac) offers you a final product ready for distribution in European and international markets with its state-of-the-art equipment and both manufacturing and packaging units.

PACKAGING SELECTION

We offer you your desired packaging and packaging preferences with our wide catalogs. Depending on the demand, we have options such as turnkey or bulk delivery (in barrels, containers or packages).

We offer you the best printing techniques to improve your packaging and labels. We are aware of the importance of the quality of the image of the product and we take an innovative and strategic approach to packaging. We are happy to share our high quality and affordable packaging solutions designs with you in line with your demands and brand identity.

QUALITY & REGULATORY AFFAIRS

Current regulations shared by EMA and FDA are followed by Hekim Pharmaceuticals (Hekim Ilac) R&D department and implemented with necessary updates. We provide support to all our customers regarding the obligation of label information, preparation of product information files, and studies with 3rd party independent laboratories for clinical tests.
