ENERGY BARS

Nuts cream bar

An alternative to cereal-based bars, the nuts cream can be the perfect product for creating an energy bar or a healthy snack, depending on the ingredients. We can develop bars with more than 90% of almond cream.

Fruits and Paleo bars

This leading development removes the cereals and flours from the ingredients list. The Grass food bars are fruits and nuts cream-based, with the possibility of adding super-foods that reinforce even more its nutritional properties.

Seeds Bar

Nuts are energetic, healthy and versatile ingredients. We can develop from 100% natural bars, perfect for a between hours snack, these formulas are enriched with vitamins, minerals and focused on athletes.

Low Sugar bar

In addition to the classic energy bars with glucose and other carbohydrates of fast absorption, we develop formulas exclusively based on complex carbohydrates and with low sugar, with cereals as the protagonists.

PROTEIN BARS

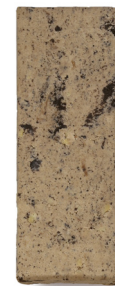

Whey Protein Bars

The protein from the lactic serum is the most valuable one because of its nutritional quality and flavor. It also has the option of choosing the other protein fraction (casein), chocolate coating and low sugar and low carbohydrate content.

Vegan protein bar

Veganism is the world food trend. We make our bars with complete vegetable protein, from the best seeds, nuts, legumes and cereals. We achieve a texture and flavor that is much superior in quality to other similar products on the market.

Natural Protein Bar

A before and after in healthy eating. We reduce the presence of the artificial sweetener thanks to using natural alternatives like chicory and protein sources like grass-fed protein and nuts. We bring closer this characteristic fitness product to the Realfooder.

Diet bar

Whether it's meal replacement options or bars to aid in the weight loss process, we are capable of designing it. Products that involve a complex formula due to the applied legislation, with good taste and infinite variants to choose from.

FLAPJACKS

Energy Flapjack

It is the combination of oatmeal with butter or margarine. It can be bathed in chocolate and it is available in different flavors. Excellent energy burst and fiber source

Natural Flapjack

It is the combination of oatmeal with extra virgin olive oil or coconut oil, with healthy sweeteners (dates, chicory, organic rice syrup). It can include fruits, nuts and seeds. It can also be bathed in black chocolate.

Protein Flapjack

Oatmeal bar with butter or margarine alongside whey protein (dairy serum) in a variable percentage, with or without chocolate coating. Different flavors to choose from, balanced nutritional intake and fiber source.

Flapjack Low Sugar

The sugar content is decreased in these energy flapjacks (100g). With the option of being coated with sugar-free chocolate and with high-fiber content. A healthy and energetic snack!

+ Developments

More options:

- Vegan.
- Gluten Free.
- Grammage.
- Thickness of the oatmeal to choose.

NUTS SPREADS

Peanut butter

Available in different types of toasting. Protein source (28%) High-fiber content (28%) and naturally rich in magnesium. New varieties with dark chocolate, milk chocolate and white chocolate.

100% Nuts spreads

Made with just one ingredient almonds, cashews, hazelnuts... light toasted. Excellent as mono-unsaturated acid fat source, plant fibre and micronutrients

Tahini

100% raw sesame seeds. Source of minerals like calcium and iron and an excellent fiber and vegetal protein contribution.

Cocoa and hazelnut butter

65% lightly toasted almonds, pure cocoa, dates and extra virgin olive oil. Creamy texture and easy to spread with premium ingredients.

Cocoa and hazelnuts protein spread.

Hazelnut spread (12,5%), cocoa powder and whey protein enriched with vitamin D. Without any sugar added, 21% of protein and natural fragrances.

All the spreads are gluten free and suitable for **vegans***

*The only not-vegan spread: Cocoa and hazelnuts protein cream with whey protein (Vegetarian)

GELS

Energy gels

These gels base their efficiency on the combination of slow and fast absorption carbohydrates (variable percentages under client request). The presence of other ingredients that improve the athlete's performance is also frequent, stimulants (caffeine), amino acids (taurine, BCAA's), or vitamins (Vitamins C, B12, B6...)

Functional gels

Whatever the chosen formula is, in Aurora Intelligent Nutrition we can develop and produce comfortable blisters: from L-Carnitine for loss weight diets or formulas based on vitamins and minerals design to take care of the immune system.

Natural energy gels

Natural is trendy and, to adapt ourselves to it, we have developed recipes based on 100% natural ingredients with honey and fruit mash as the main energy source. No additives or sweeteners supply excellent results with an amazing flavor.

Further developments

The options are countless, ask us if you want us to develop an exclusive formula for you.

GUMMIES

Multivitamin gummies

Vitamins and minerals formulas are of our developments most in-demand. They may be specific products for strengthening hair and nails, children's multivitamins (Well perceived thanks to the non-pharmacy related format) or even particular developments for women and men, adapting it to the needs of each gender.

Energy gummies

As it is a very easy to chew texture, the gummies are an excellent product for any kind of athlete that wants an energy supply/burst at their training. These gummies can be enriched with stimulants such as caffeine, branched-chain amino acids, or electrolytes like potassium or magnesium.

Relax gummies

Thanks to the combination of melatonin with extracts and vitamins, falling asleep will be easier for the user, and the gummy format will make it easier and more pleasant to take it. We can formulate gummies with the following active principles:

- Melatonin: this product has supported scientific evidence of its benefit when it comes to falling asleep.
- Plant extracts: lemon balm, chamomile, passionflower or California poppy.
- Magnesium and Vitamin B6: Both promotes rest and recovery.

More developments

Alongside these amazing developments, we can create your custom gummy, combining functional ingredients and superfood: turmeric, vegetarian fibre, plant extracts...

POWDERS

Protein shake

Milk protein: casein or protein whey (Native protein, Grass-fed in every single version of purity: concentrated, isolated or hydrolyzed). Vegetal protein: we combine different ingredients to achieve a whole aminogram: seeds, peas, rice, hemp, etc.)

Weight loss shake

We have developed from completing substitute formulas (enriched with vitamins, minerals and essential fatty acids following a strict legislative framework) to weight loss support recipes with functional and satiating, like fiber, protein or probiotics.

Protein coffee

A new development based on the combination of soluble coffee of the best quality (Robust, Arabic or both) with protein powder from any origin and purity. We custom formulate the percentage of each of the ingredients and we offer you a great diversity of flavors.

Hydration

We offer solutions to improve hydration as an alternative to water or sugary soft drinks. From flavoring without sugar, enriched with vitamins to isotonic sports drinks custom made.

More developments

The options are countless: from low-calories natural sweeteners, sport nutrition products like liquid creatine or branched-chain of amino acids, to liquid restoratives, like pancakes, soups, protein pizza dough or jellies.

SUPPLEMENTS FOODS
