HISTORY

We are an **Italian nutraceutical company**, based in the province of Como, among the first to introduce **Food supplements** to the Italian medical community.

Since the foundation of the company, in 1995, we have been committed to the development and marketing of **nutraceuticals** and **medical devices** for people's health and well-being.

STRATEGY

Thanks to our R&D Department we **carefully develop the formulations of our products by combining high quality and bioavailable raw materials** in order to launch unique products and get the best performance from the **synergy of the different active ingredients**.

Our Medical Team constantly cooperates with the most relevant Italian **KOLs** to produce scientific papers and **clinical trials** on our products.

From a commercial perspective we have a Sales Force that counts more than **140 qualified Medical Representatives** who visit Specialist Doctors all over our domestic market.
