THE WORLD OF TEA UNDER ONE ROOF

www.haelssen-lyon.com

THERE'S SOMETHING FOR EVERY TASTE IN OUR RANGE OF TEA EXTRACTS AND FINISHED PRODUCT SOLUTIONS

In 1879, Hälssen & Lyon first opened its doors to the world of tea. Today, we are a global enterprise, with a network of customers, partners and suppliers that spans the globe.

Over 60 years ago, we took the first pioneering steps into the then new world of tea extracts. This turned out to be an epic source of inspiration for the company. We have lead the way as suppliers of tea extracts to established and progressive beverage markets since.

Your single source for tea, fruit and herbal teas and their extracts

The tea market is global, complex and dynamic. Our solution is simple and highly effective.

Our services comprise the importation from the countries of origin, careful storage, production and just-in-time deliveries – supplemented by our profound knowledge of the different international markets and trends. Our regulatory and quality controls ensure the high quality of our products every step of the way from production to delivery.

Our storage and production facilities for tea, fruit and herbal products are amongst the most modern in the world, endorsed by supplies from long-term partners who share our high quality standards.

Taking the pulse of the markets

As the tastes and demands of the markets evolve and expand, we have been keen to stay ahead. Today there's scarcely a single aspect of the tea business that we haven't subjected to a process of perfection, allowing us to indulge in our passion: the creation of the finest, most compelling products for constantly changing markets.

THE VARIETY OF OUR PRODUCTS

Hälssen & Lyon is passionate about tea. We source raw materials from more than 130 countries of origin. The variety of our products is huge, and the scale of individual possibilities almost infinite. Over the years, we have created solutions for every taste, every target group, every application and every market.

Benefit from customised variations and recipes to meet your individual requirements

Thanks to our unique product base, we can offer you countless possible combinations of ingredients and finished or semi-finished varieties that perfectly meet your needs. Made to match established qualities or developed as new creations by our experienced tea experts.

DRY EXTRACTS, INSTANT POWDER MIXES AND PRE-MIXES

We can offer you a vast selection of products to choose from, to meet your specific needs.

All instant powder mixes and pre-mixes are based on the Hälssen & Lyon portfolio of premium tea extracts and other ingredients, developed and refined in-house and subject to the highest quality control standards.

Key portfolio of extracts

- BLACK TEA
- GREEN TEA
- WHITE TEA
- OOLONG
- HERBAL AND FRUIT INFUSIONS

Hot or cold

Our powder mixes are suited for cold instant applications – such as iced tea or functional health teas – as well as for hot servings like chai teas and 3-in-1-products combining tea, milk and sugar that can also be served cold.

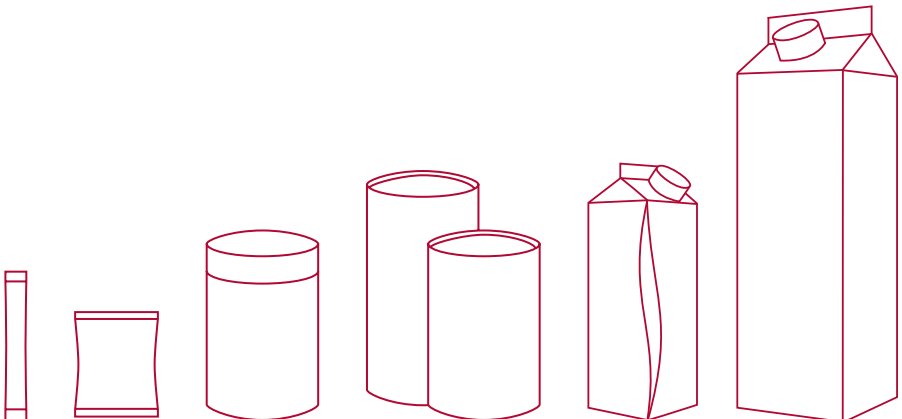

Finished or semi-finished

We can offer you finished blends for the consumer market such as instant tea with sugar or 3-in-1-products with tea, sugar and milk, as well as pre-mixes for your own further processing, e.g. without sugar.

Packaging

In addition to our bulk packs, we also offer a large variety of small packs:

- Sticks
- Sachets
- Tins
- and more

LIQUID COMPOUNDS, CONCENTRATES, SYRUPS AND SHOTS

We extract the true essence from the first-class raw materials we source worldwide, under the supervision of the most experienced tea experts: black teas, green teas, white teas, oolongs, herbal teas and fruit teas.

To meet your individual wishes, we can offer you customised recipes featuring variations on everything from flavour and sweetness to colouring.

LIQUID TEA CONCENTRATES

A select range of classic tea concentrates represents the liquid alternative to powder extracts for the industrial processing of tea-based RTD beverages. They are particularly suitable for use in filling plants.

Packaging

- Bulk pack

BEVERAGE COMPOUNDS

Our compounds are liquid beverage bases made with tea. They contain a complete set of first-rate ingredients such as tea extracts, flavours, acidic components, fruit concentrates, sugar etc. All one has to do is to dilute the mix with water before bottling.

Packaging

- Bulk pack

TEA SYRUPS

Finished tea syrups used for beverage servings offer a real indulgence to customers of food service stations – either cold as in ice tea or hot as in chai – to name just two of the many applications.

Packaging

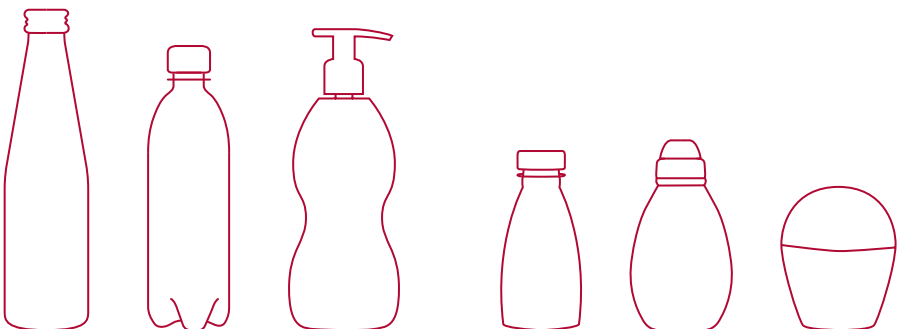

- Bulk pack
- Small pack: bottles

TEA SHOTS

Tea Shots are a unique way of enjoying true tea on the go. A little flask in your pocket is all it takes to savour 5 to 10 servings of fine tea. Infuse your water – either hot or cold – with a shot of the tea liquid and indulge in real tea taste.

Packaging

- Bulk pack
- Small pack: bottles or flasks

You are welcome to take full advantage of our experience and to create your own tea ideas with us. We look forward to providing you with the exact solution you are looking for.
