

PROTEIN Flakes & Powder

▶ instant & plant-based ◀

RABELER
FRUCHTCHIPS
DRIED FRUITS AND VEGETABLES

Enrich your product with our PROTEIN-Products!

Made from plant-based protein sources, our products have a naturally high protein content. The addition of our protein products, either as a mono-product or in combination with various fruits, vegetables or cereals, will enrich the taste and nutritional value of your product.

The gentle drum-drying process breaks down ingredients and makes the product rehydratable in hot and cold liquids. An extra cooking step before consumption is therefore not necessary. Our protein products enrich vegetarian and vegan diets with their naturally high protein content. Various cuts sizes ensure the perfect result in the individual application.

PROTEIN SOURCES

- Red Lentils
- Sunflower Protein
- Pumpkin Seed Protein
