

ORGANIC YERBA MATE

QUALITÁ BRASIL

With a sustainable, respectful production process, we preserve the natural properties and local quality of yerba mate from start to finish.

We use cutting-edge technology in harmony with traditional techniques to ensure that each batch maintains the standard of excellence that defines us in the global market.

Our yerba mate comes from Cruz Machado, one of the most renowned regions in Brazil for the production of mate. Divided into micro lots, each yerba mate reflects the pure essence of the Brazilian territory.
