

CATALOGUE 2025

THE SUPPLEMENTS MARKET

Supplements worldwide are growing: a rate of +35% from 2022 to 2026 (source: Vitafoods MarketTrends). In Italy, the market value recorded +8.8% in 2022 and +9.8% in 2023 (source: IQVIA).

Why are gummy supplements growing?

- + For easy consumption: 45% of young adults have trouble swallowing tablets or capsules.
- + For convenience: no water needed, can be taken anytime.
- + But above all, for the taste, which is the main reason for 78% of respondents, even before effectiveness.

The response from **Ravazzi**, a long-established Italian company renowned for the excellence of its gummy candies, is **DO+**

RAVAZZI APPROACH

Thanks to Ravazzi's long-standing experience in the candy industry, where taste and colour are of primary importance, and our collaboration with pharmaceutical companies that use top-quality ingredients, we are entering the supplement market with a wide range of products.

Thanks to our deep expertise in candy production, we are able to create gummy supplements based on:

GELATIN

STARCH

PECTIN

The formula **DO+** It offers innovative supplements that combine effectiveness and taste.

Effective with taste

Research & Development

EFFICACY

We use carefully selected ingredients to ensure a high-quality product.

SAFETY

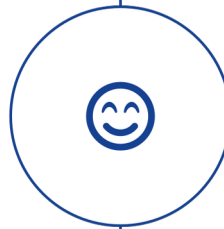

All our food supplements and vitamins are certified and registered with the Italian Ministry of Health.

TASTE

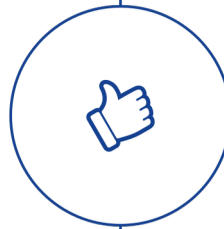

We focus on developing formulas with innovative ingredients tailored to consumers, within budget and with excellent effectiveness and flavor.

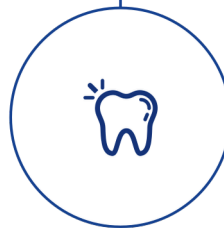

An effective formula developed by scientific laboratories, using raw materials of excellent quality.

Irresistible taste; Who could say no to a lemon-flavored bear or a strawberry-flavored fish?

Easy to take; The benefits of a supplement in a sweet, chewy gummy.

Doesn't stick to your teeth. Forget the hassle, focus on the flavor.

DO+ SLEEP

QUICK SLEEP,
PEACEFUL REST

STARCH

Melatonin

Helps reduce the time needed to fall asleep when taken shortly before bedtime. It also helps alleviate the effects of jet lag when taken just before sleeping on the first day of travel and for a few days after arriving at the destination.

Chamomile Extract

(*Matricaria chamomilla* L., flower heads)

Supports digestive function, regular gastrointestinal motility, and gas elimination. Promotes relaxation, mental well-being, normal sweating, and respiratory mucous membrane health. It also has a soothing and calming effect on the digestive system.

Lavender Extract

(*Lavandula angustifolia* Mill., flowers)

Promotes relaxation (sleep; in times of stress), supports a balanced mood, aids digestion, contributes to normal gastrointestinal motility, and helps eliminate gas.

California Poppy Extract

(*Eschscholzia californica* Cham., aerial parts)

Supports relaxation and sleep, especially in cases of stress.

DO+ Junior VITAMINS

MULTIVITAMIN FOR GROWTH

PECTIN

Vitamin C

Contributes to the normal formation of collagen of blood vessels, bones, cartilage, gums, skin, and teeth. It supports energy metabolism, nervous system, and immune function. It helps protect cells from oxidative stress, reduces tiredness and also enhances iron absorption.

Vitamin B6

Contributes to normal cysteine synthesis, normal energy metabolism, normal functioning of the nervous system, and immune system. Additionally, vitamin B6 helps reduce tiredness and fatigue and contributes to the regulation of hormonal activity.

Vitamin A

Contributes to normal iron metabolism and helps maintain normal mucous membranes, skin, and vision. It also supports immune system function.

Vitamin D

Contributes to the normal absorption and utilization of calcium and phosphorus. It maintains normal blood calcium levels, bones, muscle function, and teeth. It also contributes to immune system function and cell division.

Vitamin E

Contributes to the protection of cells from oxidative stress.

Vitamin B12

Supports energy metabolism, nervous system function, and homocysteine metabolism. It supports psychological function, red blood cell formation, and immune system health.

Vitamin PP (Niacin)

Supports energy metabolism, nervous system function, and psychological function. It helps maintain healthy mucous membranes and skin. It reduces tiredness and fatigue.

Biotin

Supports energy metabolism, nervous system function, and macronutrient metabolism. It contributes to psychological function. It helps maintain healthy hair, skin, and mucous membranes.

Folic Acid (Folate)

Contributes to amino acid synthesis, blood formation, and homocysteine metabolism. It supports psychological function and immune system function. It reduces tiredness and fatigue, and plays a role in cell division.

IMMUNITY SYSTEM

GELATIN

SUPPORTS THE IMMUNE SYSTEM AND HELPS REDUCE FATIGUE

Vitamin C

Contributes to the normal formation of collagen of blood vessels, bones, cartilage, gums, skin, and teeth.

It supports energy metabolism, nervous system, and immune function.

It helps protect cells from oxidative stress, reduces tiredness and also enhances iron absorption.

Vitamin B6

Contributes to normal cysteine synthesis, normal energy metabolism, normal functioning of the nervous system, and immune system. Additionally, vitamin B6 helps reduce tiredness and fatigue and contributes to the regulation of hormonal activity.

Vitamin D

Contributes to the normal absorption and utilization of calcium and phosphorus. It maintains normal blood calcium levels, bones, muscle function, and teeth.

It also contributes to immune system function and cell division.

Vitamin B12

Supports energy metabolism, nervous system function, and homocysteine metabolism.

It supports psychological function, red blood cell formation, and immune system health.

Zinc

Supports metabolism of acids, carbohydrates, macronutrients, fatty acids, and vitamin A.

It contributes to cognitive function.

It aids protein synthesis and maintains healthy bones, nails, hair, and skin.

It also helps maintain normal testosterone levels, vision, and immune system function.

Iron

Supports cognitive function, energy metabolism, and red blood cell and haemoglobin formation.

It reduces tiredness and fatigue.

It also plays a role in cell division and supports cognitive development in children.

Copper

Supports connective tissue maintenance and energy metabolism.

It promotes nervous system function and skin/hair pigmentation.

It contributes to immune system function and protects cells from oxidative stress.

Elderberry Extract

Supports bronchial secretion fluidity and upper respiratory tract function. It helps drainage of body fluids and supports the body's natural defenses.

ANTI-BLOATING

PROMOTES DIGESTIVE
HEALTH AND SUPPORTS
THE ELIMINATION OF GAS

Fennel Extract

(*Foeniculum vulgare* Mill., fruits)

Supports digestive function, normal gastrointestinal motility, and the elimination of gas. Also promotes the drainage of bodily fluids, helps maintain the fluidity of bronchial secretions, and helps relieve menstrual discomfort.

Mint Ext.

It has refreshing, anti-inflammatory, and antispasmodic properties, which help alleviate symptoms such as bloating and indigestion. Additionally, it promotes skin freshness, helps relieve itching, and enhances mental clarity and concentration.

Green Anise

Supports digestive health by reducing bloating and gas, and easing abdominal discomfort. It has antispasmodic, mild sedative, antioxidant, and antibacterial properties, promoting overall wellness.

Melissa Extract (Lemon balm)

It has calming, anti-inflammatory, and antioxidant properties. It helps reduce stress, improve sleep, and support digestive health by relieving bloating and indigestion. It also has antibacterial and antiviral effects.

DO+ Beauty COLLAGEN

IMPROVES SKIN HYDRATION
AND ELASTICITY WHILE
PROMOTING JOINT HEALTH
AND MOBILITY

CollaSel Hydrolyzed Bovine Collagen Peptide

CollaSel Hydrolyzed Bovine Collagen Tripeptide

Collagen peptides improve the skin by promoting hydration, elasticity, and reducing wrinkles.

Additionally, collagen supports joint health, helping to reduce pain and improve mobility, particularly in individuals with osteoarthritis.

Consuming hydrolyzed collagen stimulates the production of endogenous collagen in the skin and connective tissues, improving the quality and resilience of both the skin and joints.

Moreover, collagen also has antioxidant properties, helping to combat oxidative stress and protect tissues from damage caused by free radicals.

DO+ D3 VITAMIN

**SUPPORTS BONES, MUSCLES,
AND IMMUNE DEFENSES**

Vitamin D

Supports the normal absorption and utilization of calcium and phosphorus, and helps maintain normal blood calcium levels.

It contributes to the maintenance of healthy bones and teeth, as well as normal muscle function.

Vitamin D also plays an important role in the normal function of the immune system and is involved in the process of cell division.

In addition, vitamin D helps reduce the risk of falling associated with postural instability and muscle weakness, a key concern for men and women aged 60 and over, as falls are a major risk factor for bone fractures in this age group.

DO+ NOSE AND THROAT

SUPPORTS RESPIRATORY HEALTH, REDUCING INFLAMMATION AND IRRITATION

Marshmallow

Helps calm throat, mouth, and mucous irritations. Useful for dry cough and mucosal irritation, supports digestion.

Hedge mustard

Provides an emollient and soothing effect on the oropharyngeal mucosa, supporting vocal tone and the normal function of the upper respiratory tract

Grindelia

Helps reduce inflammation of the respiratory tract, facilitates mucus elimination, and relieves cramps and muscular contractions in the airways.

Sundew

Helps promote mucus elimination, relieve cough, and reduce spasms in the respiratory tract. It also has sedative effects that help calm nighttime cough and promote sleep.

Angelica

Supports digestion, relieves cramps and gastrointestinal discomfort, stimulates blood circulation, and boosts the immune system. It also has calming properties to reduce stress and tension.

Peppermint

Mint helps soothe throat irritation, relieves inflammation, alleviates gastrointestinal cramps, supports digestion, and reduces abdominal bloating.

SUPPORT DIGESTIVE HEALTH AND PROMOTE DETOXIFICATION

Fennel

Supports digestive health, relieves bloating and gas, helps with menstrual cramps, and has anti-inflammatory and antioxidant properties.

Malva sylvestris L.

Promotes regularity of intestinal transit and supports normal stool volume and consistency. Has emollient and soothing properties for the digestive and urinary systems, as well as for the oropharyngeal mucosa, supporting tone of voice. Also helps maintain the fluidity of bronchial secretions.

Plum

Promotes digestive health, helps regulate bowel movements, and supports heart health due to its high fiber content.

Marshmallow

Helps calm throat, mouth, and mucous irritations. Useful for dry cough and mucosal irritation, supports digestion.

Dandelion Dry Extract

(*Taraxacum officinale* (L.) Weber ex F.H.Wigg., Root)

Supports digestive and liver function, as well as intestinal transit regularity. Also promotes urinary tract function, the body's natural detoxification processes, and the drainage of bodily fluids.

Nopal powder

Helps maintain body weight balance and supports the modulation of nutrient absorption. Has an emollient and soothing effect on the digestive system and promotes regular intestinal transit.

TESTOSTERONE

SUPPORTS TESTOSTERONE LEVELS, COGNITIVE FUNCTION, AND IMMUNE SYSTEM

Zinc

Supports metabolism of acids, carbohydrates, macronutrients, fatty acids, and vitamin A. It contributes to cognitive function. It aids protein synthesis and maintains healthy bones, nails, hair, and skin. It also helps maintain normal testosterone levels, vision, and immune system function.

Selenium

Contributes to the normal function of the immune system, thyroid, and helps protect cells from oxidative stress. It also helps maintain normal hair and nails and supports spermatogenesis.

Maca Extract

Maca extract helps boost energy, improve physical endurance, and support hormonal balance. It enhances sexual function, reduces stress, and offers antioxidant properties.

Tribulus Extract

Supports sexual function, increases testosterone levels, and improves energy and physical endurance. It also has antioxidant, anti-inflammatory properties

Ginkgo extract

Improve blood circulation and supports cognitive functions, enhancing memory and concentration. It also has antioxidant, anti-inflammatory properties and supports cardiovascular health.
