

American Peanut Ingredients (API) is a wholly-owned subsidiary of American Peanut Growers Group (APGG), a grower-owned LLC based in Georgia (USA) that sells raw redskin and blanched peanuts. Nestled in the extreme southwest corner of Georgia, APGG's growing base is heavily irrigated which enhances the quality and yield potential of their annual peanut supply. API was founded in 2021 to add peanut shelling capacity to APGG's current infrastructure as well as add further vertical integration by manufacturing bulk, custom, made-to-order and Ready-To-Eat peanut ingredients. ***These ingredients include all dry roasted and blanched peanuts in the form of splits, chopped granules, and/or paste/butter.***

	Tankers	Drums	Supersacks	25 lb box	30 lb box	50 lb box
Splits*						
Granules*						
Paste						
Butter**						

*Dry Roasted Items Can Be Salted
