## "A NEW ERA OF SWEET TREATS!"

At SadeF Gıda, we're on a mission to take your taste buds on an interstellar journey, where technology and innovation collide to create the next generation of candies, marshmallows, and jellies.

Fueled by our state-of-the-art facility and cutting-edge freeze-drying technology, we transform classic treats into light, crispy, and mouthwatering creations—preserving their original flavors while adding a cosmic crunch like nothing else on Earth.

Each product we create is designed to defy gravity and exceed global quality standards, catering to the ever-evolving tastes of consumers around the world. We take delicious treats on a journey beyond the ordinary!

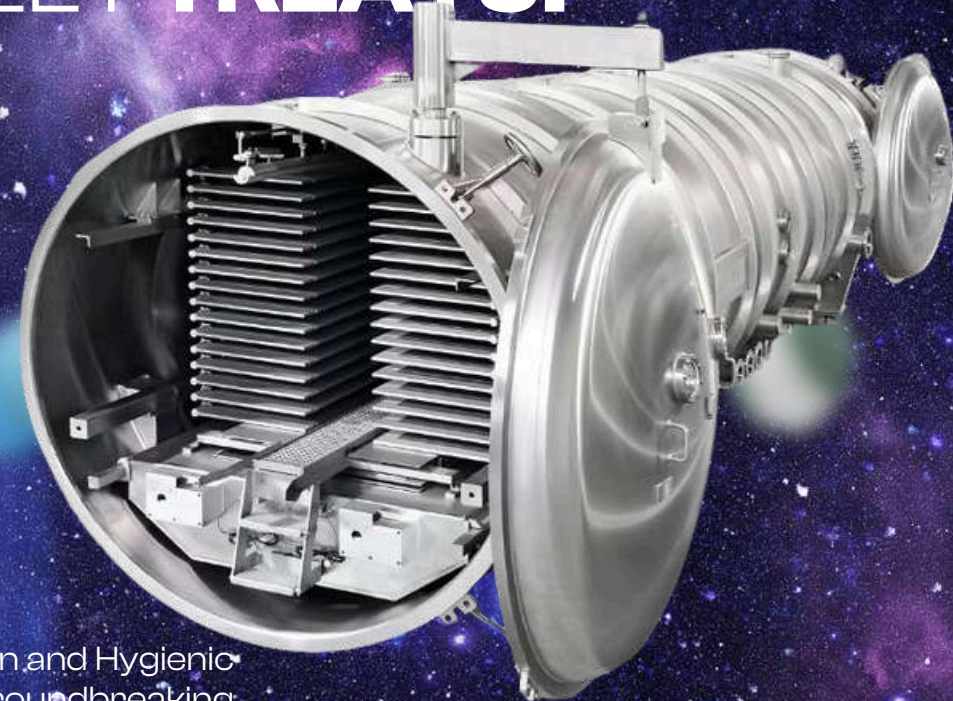

But what makes this journey possible?

### **Mission Control: Where the Magic Happens!**

This is the Factory of the Future—awarded the "World's Most Modern and Hygienic Food Processing Facility." We lead the industry with groundbreaking advancements:

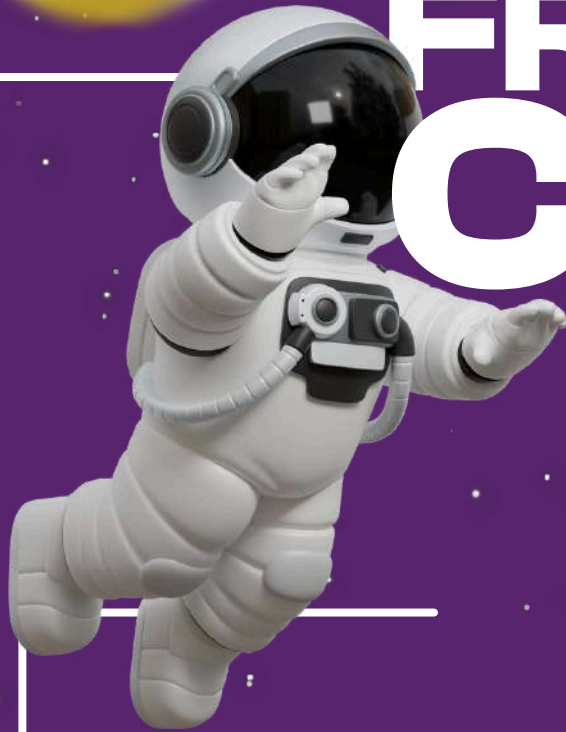

- ★ GFSI 2020 JII-Ready facility, leading the way in food safety.
- ★ Powered by renewable energy, using solar panels to fuel production.
- ★ Home to an on-site accredited lab and R&D center, ensuring top-tier innovation.
- ★ Utilizing PEF (Pulsed Electric Field) technology for superior quality.
- ★ The first green factory in the fruit processing sector, with low carbon emissions.
- ★ A member of EHEDG (European Hygienic Engineering and Design Group), collaborating with its suppliers & construction firms.

Whether you're looking for that next unique treat or reimagining your product line, our freeze-dried candies, marshmallows, and jellies are the perfect launchpad for new possibilities—helping your ideas soar!
