# AGRANA - SOLUTION PROVIDER FOR SPECIAL NUTRITION

For over 30 years, AGRANA has been a leading contract manufacturer of high-quality infant and toddler formula. We are proud to have recently expanded our portfolio to include plant-based solutions, offering our customers innovative alternatives on a global scale. We are specialized in tailor-made solutions for our customers. We produce formulas for the entire life cycle based on cow and goat milk as well as plant-based alternatives.

With an automated production process, hygiene criteria & top quality as number one priority in our production and customized product development, AGRANA is your reliable partner to design the formula you need. Our formulas comply either with the European or WHO regulations. Moreover, we have extensive expertise with formulas according to international legislations including US for toddlers.

## YOU CHOOSE – WE PRODUCE!

With deep expertise in understanding specific customer requirements and adhering to the highest industry standards, AGRANA provides end-to-end solutions that cover the entire production process—from product development and raw material sourcing to final retail-ready packaging.

### History and Capabilities:

- Experience: AGRANA has been producing high-quality organic infant formula for decades, leveraging its extensive knowledge and expertise in formulation.
- Dry Ingredients: Mainly dry ingredients are used, offering multiple benefits such as easier handling, longer shelf life, and continuous availability. This flexibility also allows AGRANA to switch seamlessly between organic, conventional, cow, goat, and A2 milk sources without compromising quality.
- Certified Supply Chain: Raw materials are sourced through well-established, certified supply chains and processed according to the highest international standards, ensuring consistent and premium-quality products.
- Production Capacity: AGRANA's plant in Gmünd, Austria, has a production capacity of up to 7,000 tons. The plant focuses on high-quality products, including organic, cow, goat, and plant-based toddler drinks. Formulations can be customized to meet specific client needs, with raw materials sourced regionally.
- Compliance: AGRANA adheres to various international regulations, including EU standards, WHO Codex, and various international standards.
- Packaging: Packaging options include big bags, folding boxes, and tins.

# LET'S DESIGN YOUR FORMULA TOGETHER

PRODUCTION FOR COW MILK, GOAT MILK & PLANT-BASED FORMULA:

- INFANT & TODDLER
- SPORTS NUTRITION
- HEALTHY AGING

Our expertise lies in producing premium, tailor-made formulas using powdered conventional and organic cow or goat milk. To meet the growing demand for plant-based options, we now also offer regionally sourced, delicious vegan alternatives. Discover our dairy-free, soy-free vegan innovations featuring organic faba bean, pumpkin, and buckwheat proteins.
