GUMMY SUPPLEMENTS

Science and nutrition **working for your brand**

At **Boston Nutraceutical Science**, we manufacture **gummy dietary supplements** that combine excellent flavor with effective nutrition. With a **clean-label** philosophy and **360° support**, we turn your idea into a shelf-ready product: from **formulation** through **packaging**, with **scientific rigor** and **expert guidance**.

WHAT WE OFFER

- **Standard and custom formulations** tailored to your brand positioning.
- **Clean-label:** vegan, sugar-free, gluten-free, and lactose-free options.
- **Flavor and texture development** adapted to your target audience.
- Various packaging solutions: **jars, bottles, sachets, and sustainable pouches**
- **Comprehensive support:** from concept to shelf-ready product.

WHY GUMMIES

- **Easy to take** with high adherence.
- **Versatile format** — suitable for vitamins, minerals, probiotics, omega-3s, collagen, herbal extracts, and more.
- **Fast-growing dosage form** — among the most in-demand in health & wellness.

360° APPROACH & BRAND

Beyond manufacturing, we also build our own brand, **Vitaldin**. That gives us **hands-on knowledge** of positioning, **sell-through at the point of sale**, and real **consumer preferences** — accelerating developments with **commercial impact**.
