

BEEHALL®

ABOUT US

BEEHALL GROUP was established in 2003 with registered capital of 120 million yuan. Located in Beijing, the capital of China. The business scope include bee breeding, R&D, production, sales, export, OEM & ODM service.

The fate between **BEEHALL** and bees began from 1943. The founder's father is a professional scientific management researcher and bee breeding practitioner. Our founder Mr. Ren Diwei has been deeply attracted by bee culture since he was a child. He loves and respects bees. He always believed that bees are the friends of human beings, and bee products can bring health to human.

BEEHALL will continue to shoulder the great mission of "bringing health to human beings through bee products", establish a century brand. We determined to work together with global friends to create a healthy and sweet future.

FACTORY

BEEHALL GROUP covering more than 50,000 square meters. There is an independent R&D center and 13 world-leading professional customization production lines in the GMP level factory. More than 250 employees, including 10+ in R&D team, 20+ in product quality team, 4 pharmacists, 40+ technical backbones.

BEEHALL is the First Vice President Enterprise of China Bee Products Association and the leading enterprise among Chinese bee products industry.

Main products contain royal jelly, propolis, bee pollen, honey, beeswax, bee venom, bee skin care, bee daily use, etc. **ISO, HACCP, EOS ORGANIC, NOP ORGANIC, HALAL** and **FDA** are approved. Our products can meet the demands of all customers in the world.

Hebei, North

- * 100+ bee breeding bases, covering the five major regions in China
- * Control product quality from the source. Only provide the highest quality bee products.
- * Fully support beekeeping industry, help beekeepers have a better life.

BEEHALL BEE MUSEUM

To promote bee culture, BEEHALL spent 24 months to build the Bee Theme Museum. It contains Ecological area, Cultural area, Tasting area, Bee Products area and Healthcare area.

BEEHALL interpreted museum by nature, humanity, and love ideas. Since it opening to society, it is highly acclaimed. Now this museum is "Bee Culture Demonstration Base in China", "Student Social Education Base", and "Industrial Tourism Demonstration Base".
