Animal nutrition

Pharmanager Development's animal nutrition experts can advise and support you in all aspects of animal nutrition regulations.

Cosmetics

Our expertise in the regulatory cosmetics sector, in compliance with Regulation (EC) n°1223/2009, ensures that you can market your products in full conformity.

Biocides

Need help to meet biocidal product regulations in Europe? Pharmanager Development can help you at every stage of the process.

OUR EXPERTISE

Product development

From formulation to manufacturing, we accompany you at every stage, from sourcing to regulatory assessment.

Scientific substantiation

We specialize in writing monographs on ingredients, creating scientific dossiers for product evaluation, and coordinating clinical and toxicity studies.

Training & Quality Audit

We are a Qualiopi-certified training organization, offering training in regulations and quality audits.

Regulatory Audits & procedures

Management of over 500 dietary supplement registration files per year across 80 countries.

Phinn® database

PHINN® is your daily ally for innovating, verifying, and staying informed in the field of nutrition and health.

Pheed® database

Pheed® is your daily tool for saving time, staying compliant, and boosting innovation in animal nutrition with real-time insights.

International expertise

Thanks to our European expertise and our presence in **more than 55 third countries**, we help companies conquer new markets by guaranteeing the regulatory and scientific compliance of their products.

WEBINAR TRAINING

Each year, we offer training courses in person or via webinar on recurring themes.
