

NordRelease[®] Reishi Organic Extract

Standardised Reishi Extract for Stress Response & Sleep Support

NordRelease[®] Reishi Organic Extract is a high-potency, standardised extract developed to support stress response, relaxation, and sleep quality. Rich in bioactive compounds such as triterpenoids, including ganoderic and lucidenic acids, it contributes to physiological balance and adaptation to stress.

Known for its adaptogenic properties, triterpenoids are associated with stress response modulation and immune resilience, while lucidenic acids are linked to relaxation and overall well-being.
