AmlaFem™

AMLA EXTRACT

*Vitamin C Synergy Antioxidant for
Radiant Skin from Within*

Amla (Phyllanthus emblica) is a traditional Ayurvedic superfruit known for its exceptional antioxidant profile and natural synergy with vitamin C. Widely used in beauty and wellness formulations, it helps support skin vitality from within and is increasingly recognized in modern nutri-cosmetics for its anti-aging potential.

SPECIFICATION	RECOMMENDED DOSAGE
Polyphenols>20%	300-1000 mg/d

ACTION MECHANISM

Strong antioxidant capacity helps neutralize free radicals, supports collagen stability, and improves skin radiance and resilience.

FORMULA CONCEPT

Radiant Skin Daily Formula
Amla + Vitamin C + Collagen
Powder / Sachet

Gava Glow™

GUAVA EXTRACT

*Clinically Supported Skin Clarity
& Metabolic Balance*

Guava extract is a tropical botanical rich in polyphenols and supported by clinical research for its benefits on skin appearance and metabolic health. It offers a modern, science-backed plant solution for improving skin clarity and overall wellness.

SPECIFICATION

Polyphenols>3%

RECOMMENDED DOSAGE

200-300 mg/d

ACTION MECHANISM

Reduces oxidative stress and inflammation, supports skin clarity and metabolic balance.

FORMULA CONCEPT

Clear Skin Balance Formula
Guava + Apple Polyphenols + Zinc
Beverage / Capsule

Disugar[®]

MULBERRY LEAF EXTRACT

*Blood Sugar Control
& Anti-glycation Support for Skin Aging*

Mulberry extract is a DNJ-rich botanical known for its role in supporting carbohydrate metabolism. Research suggests it helps regulate post-meal glucose levels and reduce glycation-related stress, making it a valuable plant-based solution for metabolic balance and skin health from within.

SPECIFICATION

DNJ 5%

RECOMMENDED DOSAGE

150-300 mg/d

ACTION MECHANISM

NJ (1-deoxynojirimycin) works by inhibiting carbohydrate-digesting enzymes, primarily α -glucosidase, slowing the breakdown of complex carbohydrates into glucose. This helps reduce postprandial glucose spikes, which are closely linked to glycation processes. By limiting the formation of advanced glycation end products (AGEs), mulberry extract supports the protection of collagen structure and contributes to healthier skin aging.

FORMULA CONCEPT

Anti-Gly cation Balance Formula
Mulberry + Apple Polyphenols + Chromium
Beverage / Powder / Capsule

InSKN®

SAKURA EXTRACT

*Gentle Botanical Brightening Inspired
by Japanese Beauty*

Inspired by traditional Japanese beauty culture, cherry blossom extract is valued for its gentle skin-enhancing properties and elegant botanical origin. It is increasingly used in premium beauty formulations for its brightening and antioxidant effects.

SPECIFICATION

Polyphenols>12%;
Caffeoyl glucose>5%
Quercetin glucoside>0.5%

RECOMMENDED DOSAGE

200-350 mg/d

ACTION MECHANISM

Helps inhibit melanin formation and protects against environmental stress.

FORMULA CONCEPT

Gentle Brightening Beauty Formula
Sakura + Hyaluronic Acid + Vitamin C
Gummies / Powder

Ti-RoxC[®]

ROSA ROXBURGHII EXTRACT

*Dual Antioxidant System for
Visible Skin Brightness*

Rosa roxburghii is a unique Chinese superfruit naturally rich in vitamin C and SOD, combining both enzymatic and non-enzymatic antioxidant systems. It represents a next-generation botanical for comprehensive oxidative defense and skin brightening applications.

SPECIFICATION

SOD 100000 U/g
& 17% Vitamin C

RECOMMENDED DOSAGE

600 mg/d

ACTION MECHANISM

Protects against oxidative damage, enhances skin brightness, and supports anti-aging.

FORMULA CONCEPT

Brightening Antioxidant Drink
Rosa Roxburghii + Collagen
Powder/Beverage

APPLE EXTRACT

Anti-glycation Protection for Youthful Skin

Apple polyphenols are well recognized in the European market for their role in anti-glycation and skin aging prevention. As a familiar and trusted ingredient, they bridge scientific credibility with strong consumer recognition.

SPECIFICATION

Polyphenols>60%

RECOMMENDED DOSAGE

300-600mg/d

ACTION MECHANISM

Inhibits glycation, supports skin elasticity and reduces dullness.

FORMULA CONCEPT

Anti-Glycation Beauty Formula
Apple Polyphenols + Guava + Chromium
Capsule

HIBISCUS EXTRACT

Hydration & Elasticity from Vibrant Botanicals

Hibiscus flower extract is widely used in beauty and wellness products for its vibrant antioxidant profile and refreshing botanical identity. It is often associated with skin hydration, elasticity, and youthful appearance.

SPECIFICATION

Polyphenols>5%

RECOMMENDED DOSAGE

500–1500 mg/d

ACTION MECHANISM

Provides antioxidant and anti-inflammatory effects, supports skin hydration.

FORMULA CONCEPT

Hydration Beauty Drink
Hibiscus + Collagen + Hyaluronic Acid
RTD / Tea

GREEN TEA EXTRACT

UV & Inflammation Shield for Clearer Skin

Green tea extract standardized to high-purity EGCG is one of the most extensively studied natural antioxidants. It is widely used in both dietary supplements and skincare for its protective effects against environmental stress.

SPECIFICATION

EGCG >98%

RECOMMENDED DOSAGE

100-300 mg/d

ACTION MECHANISM

Protects against UV damage, reduces inflammation, supports skin clarity.

FORMULA CONCEPT

Clear & Defense Formula
EGCG + Zinc + Vitamin C
Powder / Capsule

CLEAN-GINSENG®

RARE GINSENOSIDES

*Advanced Ginseng for
Deep Anti-aging Vitality*

This advanced ginseng extract is enriched with rare ginsenoside Rg3, a high-value bioactive compound with enhanced bioavailability. It represents a premium upgrade from traditional ginseng, targeting anti-aging and vitality at a deeper level.

SPECIFICATION	RECOMMENDED DOSAGE
Rg3 >10% (water-soluble)	70 mg/d

ACTION MECHANISM
Supports circulation, reduces oxidative stress, and promotes cellular vitality.

FORMULA CONCEPT
Deep Anti-Aging Formula
Ginseng Rg3 + Ergothioneine
Capsule / Skincare

GOLDEN OYSTER MUSHROOM EXTRACT

Longevity Antioxidant for Cellular Protection

Golden oyster mushroom is a natural source of ergothioneine, a rare and highly stable antioxidant amino acid often referred to as a “longevity nutrient.” It is gaining strong interest in both nutraceutical and cosmetic industries for its cellular protection properties.

SPECIFICATION

Ergothioneine >1%

RECOMMENDED DOSAGE

500 mg/d

ACTION MECHANISM

Protects cells from oxidative stress and supports mitochondrial health.

FORMULA CONCEPT

Cellular Longevity Formula
Ergothioneine + Urolithin A + CoQ10
Capsule

MitoYouth®

UROLITHIN A

Mitochondrial Anti-aging for Skin Renewal

Urolithin A is a postbiotic metabolite derived from polyphenol metabolism, backed by cutting-edge research in longevity science. It is increasingly recognized as a next-generation ingredient for cellular renewal and skin health.

SPECIFICATION

Urolithin A>10%
(water-soluble)

RECOMMENDED DOSAGE

0.3%–1.0%

ACTION MECHANISM

Activates mitophagy, improves mitochondrial function, and supports skin renewal.

FORMULA CONCEPT

Mitochondrial Renewal Formula
Urolithin A (oral/topical)
Capsule / Skincare

SunySpas® CAULIFLOWER MUSHROOM EXTRACT

Gut-skin Axis Support for Holistic Beauty

Sparassis crispa, also known as cauliflower mushroom, is rich in beta-glucans and widely valued for its immune-supporting properties. In beauty applications, it is associated with the gut-skin axis and holistic skin health.

SPECIFICATION

β - (1,3)-glucan>12%

RECOMMENDED DOSAGE

600 mg/d

ACTION MECHANISM

Supports immune balance and skin health through anti-inflammatory pathways.

FORMULA CONCEPT

Gut-Skin Beauty Formula
Cauliflower Mushroom+ Probiotics + Fiber
Powder
