Application Guide

Product	Dry mix	Dairy	Confectionery	Bakery	Beverages	Food	Description
Native tapioca starch	●	●	●	●	●	●	For food raw material and ingredient
Maltodextrin DE10/DE14/DE16/DE18	●	●	●	●	●	●	For food ingredient and food additive, Bulking and Thickening, Carrier agent, low sweet creamy taste.
Glucose & Maltose syrup DE 24 - 29 (Low DE) DE 38-42 (Medium DE) DE 42-49 (High maltose) DE 38-50 (Low maltose) DE 60-70 (High glucose)		●	●	●	●	●	Lightly sweet taste, non sediment, Non Crystalline. Give body , Viscosity and mouthfeel.
Glucose syrup solids DE 24-29 DE 38-42	●	●	●	●	●	●	Lightly sweet taste, Powder form, Bulking and body agent.
Dextrose Monohydrate	●	●	●	●	●	●	Sweet taste, High purity of D-Glucose.Source of energy metabolic.
Fructose syrup		●	●	●	●	●	Sweet taste, Sucrose replacement, Fermentable Carbohydrate.
Isomalt oligosaccharide (IMO) 14/50/90	●	●	●	●	●	●	Lightly or Medium sweet taste, non sediment, Non Crystalline, Low sugar, Source of fiber, Prebiotic properties.
Resistant Maltodextrin 50% 70% 90%	●	●	●	●	●	●	For food ingredient and food additive, Bulking and thickening agent, low sweet taste, creamy taste, Improve the flavor of plant protein, Source of fiber. Prebiotic properties.

200 Litres HDPE drum open top

Material : High density polyethylene
Net weight : 280 – 300 Kgs.

200 Litres HDPE drum tight head

Material : High density polyethylene
Net weight : 280 – 300 Kgs.

1,000 Litres IBC Plastic

Material : High density polyethylene
Net weight : 1,000 – 1,500 Kgs.

1,000 Litres IBC kraft box with plastic liner

External material : Kraft paper
Internal Material : High density polyethylene
Net weight : 1,000 – 1,500 Kgs. Heating pad option

Flexitank

Liner Material : Polyethylene
Net weight : 20,000 – 24,000 Kgs.
Heating pad option

Tanker

Material : Stainless steel
Net weight : 15,000 – 30,000 Kgs.

ISO tank

Liner Material : Stainless steel
Net weight : 20,000 – 24,000 Kgs.
Heating pad option

Powder product in small bag

External material : 3 ply kraft paper
Internal material : High density polyethylene
Net weight : 20 – 25 Kgs.

Powder product in jumbo bag

External material : Polypropylene
Internal material : High density polyethylene
Net weight : 500 Kgs.
