

VIRCO INTERNATIONAL (PVT) LTD

About Us

VIRCO International (Pvt) Ltd is a company based on the tropical island of Sri Lanka that focuses exclusively on developing world-class organic products using Sri Lankan organic harvests. Virco was found by Mr Nipuna Illangarathne and Dr Dinesh Kodithuwakku in 2013 and incorporated in 2015 with the concept of introducing and providing a range of valuable tropical healthy food products to the worldwide market while distributing the return from the business back to the rural community.

Our founders had the vision to bring to you a trusted and existing organic food & beverages driven by a passion for perfection and untapped potential overseas by introducing the best of the tropical essence to the world along with the guiding philosophy of '**Let the Food be the Medicine and the Medicine be the Food**'.

Our Vision

To be the leading provider of premium quality organic food & beverages recognised globally and, through that, to become a sustainable, innovative and customer-satisfied organisation.

Our Mission

We are on a mission to provide nourishment for a healthier world. Our passion for organic goodness drives us to produce exceptional foods that fuel well-being and respect our planet.

Our Team

The choices we make when it comes to food impact not only our health but also the health of our planet. Our business concept is rooted in sustainable farming and fair-trade practices, ensuring that every step of our production chain respects the Earth and its caretakers. Our well-educated, experienced and talented team is here to impart the exquisite flavours of Ceylon to the world's discerning palate.

Organic MCT Oil

Organic Medium-Chain Triglycerides (MCT) Oil is tasteless, odourless, and extracted purely from organic and non-GMO coconuts. MCT oil is a type of dietary fat composed of medium-chain fatty acids. There are two types of MCT Oil, MCT 60/40 Oil and MCT C8 Oil. MCT C8 Oil contains Caprylic Acid (C8:0): 98% - 99.8% and MCT 60/40 Oil contains Caprylic Acid (C8:0): 55% - 65% and Capric Acid (C10:0): 35% - 45%. The key characteristic of MCTs is their ability to be rapidly absorbed and metabolised by the body at a quicker rate and thereby readily offer energy without being stored as fat, leading to a number of potential benefits. It is well-blended in foods and beverages.

We are thrilled to say that we are the first manufacturer of MCT oil in Sri Lanka.

Flavored MCT Oil

Organic Medium-Chain Triglycerides (MCT) Oil is tasteless, odourless, and extracted purely from organic and non-GMO coconuts.

Imagine enhancing this exceptional oil with natural flavours. In our product lineup, we offer orange and caramel-flavored MCT oils. It is well-blended with your morning coffee or tea, bulletproof coffee/tea.

Organic Virgin Coconut Oil

Virgin coconut oil is the purest form prepared from fresh meat of mature coconut. The product is clear and has a pleasant aroma and taste, powerful antioxidants, healthy fatty acids, and essential vitamins, to name a few. VCO is made directly by cold compression of fresh, dried coconut meal called micro-expelling and maintains the temperature below 60 °C throughout the process.

Organic Non-Aroma Coconut Oil

Non-Aroma Coconut Oil has a higher smoke point than normal coconut oil. So, it is suitable as a high-temperature cooking oil and a healthy replacement for available cooking oils. Non-Aroma Coconut Oil manufacturing process removes aromatic compounds and colour pigments such as benzopyrene, polar compounds, and oxidised compounds from raw coconut oil.

Organic Coconut Based Products

Organic Coconut Sugar

Organic Coconut Sugar is derived from coconut palm sap. It is an alternative for cane sugar and can be used with coffee, tea, and other beverages. It can also be used as a flavoring agent for cakes, bread, or any type of baking product.

Organic Coconut Flour

Our Coconut Flour is derived from the granulated coconut flakes left out from the organic coconut oil extraction. The product has a creamy white color and nutty odor. It is a gluten-free alternative to wheat and an excellent source of dietary fiber.

Organic Coconut Milk

This time-tested and traditional staple food is an all-time favorite in Asian and Latin American cuisines. Our Organic Coconut Milk leaves its rich and creamy goodness to many wonderful regional dishes.

Organic Unsweetened Desiccated Coconut

Desiccated coconut is coconut meat which has been shredded and then dried to remove moisture as much as possible. The product has creamy white color and natural coconut aroma with a sweet coconut flavor. It is gluten-free. There are several different styles of desiccated coconut used around the world, depending on the size of the particles. Such as fine, medium, chips, chip-lets.

ORGANIC SPICES

Organic Ceylon Cinnamon Powder

Organic cinnamon powder is the ground true cinnamon quills. Product has golden brown colour, more delicate texture, and unique fragrance. Unlike Cassia (commonly available cinnamon in the market), Ceylon Cinnamon, also known as *Cinnamomum zeylanicum* does not contain “Coumarin”

Organic Ceylon Cinnamon Sticks

Organic Cinnamon sticks are the true Cinnamon in which the quills are multi layers and hand-rolled. Ceylon Cinnamon, also known as *Cinnamomum zeylanicum* does not contain “Coumarin.”

Organic Turmeric Powder

Turmeric is a spices comes from the rhizomes of the turmeric plant. Turmeric has subtle flavor, distinct bright yellow color and powerful aroma. High Curcumin content in Ceylon turmeric – 5-6% (Curcumin is anti-cancer agent).

OTHER ORGANIC PRODUCTS

Organic Wood Apple Powder

Wood apple powder is made from completely dried wood apple pulp mixed with coconut sugar powder. Wood apple is a nutrient rich fruit which contains a surprisingly high amount of pectin, protein and low amount of sugar and carbohydrate compare with many other fruits.

Organic Moringa Powder

Organic Moringa Powder is made from the leaves of the organically grown Moringa trees. This is a single ingredient product. Can use as ingredient for smoothies, milk shakes and baking. Moringa leaf powder is rich in proteins and truly a gift of the nature.
