WHY ARCTIC SEAWEED?

**Extreme conditions. Clean waters.
Powerful natural compounds.**

Our *Ascophyllum nodosum* grows in cold, clean Arctic waters north of the Arctic Circle — exposed to polar night, midnight sun, tides, storms and seasonal temperature extremes. This demanding environment helps create a robust, mineral-rich and naturally bioactive marine ingredient.

**1. COLD ARCTIC
WATERS**

Clean, mineral-rich
marine environment.

**2. POLAR
NIGHT**

Long dark
winter season.

**3. MIDNIGHT
SUN**

Continuous summer
light above the
Arctic Circle.

**4. TIDAL
EXPOSURE**

Naturally exposed
to air, sea, wind
and shore.

**5. HAND
HARVESTED**

Carefully selected
biomass from
approved areas.

**6. FAST
PROCESSING**

Transported directly
for quality control
and drying.

ORGANIC CERTIFIED

Debio Norwegian Organic certified
wild harvested seaweed.

**HARVESTED NORTH
OF THE ARCTIC CIRCLE**
Pure origin from the pristine
Arctic environment.

FULL BATCH TRACEABILITY

Unique traceability from harvest to
finished product with QR access.

DEBIO ORGANIC CERTIFIED

Certified organic Arctic seaweed from Northern Norway

Our Arctic Seaweed is Debio certified organic and produced in Norway from carefully selected Arctic coastal biomass. For international buyers, this provides a trusted quality signal — combining organic certification, documented handling and professional B2B readiness.

Organic Certified

ARCTIC SEAWEED PRODUCT PORTFOLIO

From wild harvested Arctic biomass to premium organic ingredient formats

Norway Naturals supplies organic Arctic *Ascophyllum nodosum* in flexible formats for food, functional ingredients, HoReCa, private label and industrial B2B applications.

ONE ARCTIC INGREDIENT

Pure organic
Ascophyllum nodosum
from Northern Norway.

FLEXIBLE FORMATS

Whole, flakes, powder,
spice, bulk and
private label.

READY FOR YOUR MARKET

Food, supplements, HoReCa,
industrial and private
label solutions.

1. WHOLE DRIED SEAWEED

Carefully dried Arctic
Ascophyllum nodosum for
further processing, extraction
and specialist applications.

2. SEAWEED FLAKES

Coarse cut flakes for food,
spice, functional food,
seasoning and ingredient use.

3. FINE POWDER

Milled Arctic seaweed
powder with fineness
adapted to customer
requirements.

4. ARCTIC SEAWEED SPICE

Organic seaweed spice for
food, seasoning, HoReCa,
retail and private label
concepts.

5. BULK INGREDIENTS

Available for B2B supply
in 1 kg, 20 kg and larger
industrial formats on
request.

6. PRIVATE LABEL SOLUTIONS

From certified raw material to
consumer-ready products
with selected production
partners.

APPLICATIONS OF ARCTIC SEAWEED

One certified Arctic ingredient —
multiple high-value markets

Organic *Ascophyllum nodosum* can be supplied as whole dried seaweed, flakes, powder, spice, bulk ingredient or private label solution — supporting a wide range of professional food, wellness, agricultural and industrial applications.

ONE INGREDIENT. MANY OPPORTUNITIES.

From food to agriculture — Arctic seaweed adds natural value across a wide range of professional applications.

FOOD INGREDIENTS

Natural marine ingredient for food producers, seasoning blends, bakery, soups, sauces and plant-forward concepts.

SEASONING & SPICE

Arctic umami, mineral notes and natural seaweed character for spice blends and culinary products.

FUNCTIONAL FOODS

Organic marine ingredient for fibre-rich, mineral-focused and clean-label product innovation.

SUPPLEMENTS

Certified Arctic raw material for selected capsule, tablet, powder and blend concepts.

HORECA

Professional formats for restaurants, hotels, catering, chefs and Nordic culinary concepts.

PET FOOD

Marine ingredient opportunities for selected pet nutrition and clean-label consultations.

ANIMAL FEED

Bulk ingredient potential for feed-related applications and natural marine input streams.

COSMETICS

Marine botanical ingredient concepts for selected cosmetic and skincare formulations.

AGRICULTURE

Seaweed-based input potential for soil, crop and biostimulant-related product development.
