Newtra Food is an Italian company that develops **high-value-added powdered ingredients** derived from fresh fruit and vegetables, supporting our clients in the creation of **functional foods**.

Our product line is **100% plant-based** and **free from additives**. Each ingredient is rich in fiber, vitamins, polyphenols, and antioxidants, retaining the natural color and authentic flavor of the fresh vegetable.

The secret lies in a **patented technology** that involves grinding the vegetable followed by freeze-drying; this process yields a highly concentrated powder with a **superior nutritional and sensory profile** compared to raw materials produced using alternative technologies.

OUR RANGE OF HIGH-PERFORMANCE VEGETABLE POWDERS

- BROCCOLI
- ASPARAGUS
- ARTICHOKE
- CAULIFLOWER
- CARROT
- TOMATO
- LEMON
- SPINACH
