MicroDried®

FARM GROWN. TECHNOLOGY DRIVEN.

INCLUSIONS THAT HOLD UP INSTEAD OF HOLDING YOU BACK

Our shelf-stable fruit, vegetables, and dairy inclusions are real ingredients engineered for nutrition. They're designed to maintain structure, deliver flavor, and simplify formulation.

www.microdried.com

SIMPLE FORMULATION WITH INGREDIENTS THAT PERFORM

Low moisture, durable, and easy to process, MicroDried® inclusions are designed for modern food systems. They integrate cleanly, maintain structure during mixing and forming, and deliver real color, flavor, and texture—without complicating your formulation.

PROCESSING PERFORMANCE

Low moisture and low water activity help manage moisture migration and support shelf stability.

FASTER DEVELOPMENT

Ready-to-use formats simplify scaling, reduce formulation friction, and support faster commercialization.

REAL INGREDIENT IMPACT

Retention of natural color, flavor, and nutrients without additives or carriers (fruit & vegetable products).

FROM REAL INGREDIENTS
TO FUNCTIONAL INCLUSIONS

MicroDried transforms whole fruits, vegetables, and dairy into ingredients that perform—without sacrificing quality.

100% REAL INGREDIENTS → PRECISION DRYING → FUNCTIONAL INCLUSIONS

BETTER PRODUCT QUALITY

- Vibrant color & flavor
- Strong nutrient retention
- No added sugar (fruit & vegetable products)

STRONGER PROCESSING PERFORMANCE

- Flowable, not sticky
- Reduced moisture migration in finished products
- Designed to withstand mixing & blending

THE SIMPLER FORMULATION

- Reduce cold chain dependence
- Reliable, year-round supply
- Multi-functional inclusion
- Integrated flavor & texture system

MicroDried®
