We are
Aroma

In the heart of Mahuva, India, the global epicentre for white onion cultivation and dehydration, Aroma Agro & Ingredients stands at the intersection of heritage and high-tech manufacturing. While Mahuva has long been recognized as the largest hub for onion exports, we believe that being the largest is only meaningful if it is matched by being the most meticulous.

As a proud member of the KHUSHBOO Group of Industries, our foundations were laid in 1994 through a partnership built on a simple, enduring commitment to industrial excellence. Over the following decades, that commitment transformed a modest beginning into a diversified conglomerate spanning Iron & Steel, Poultry Farming & Renewable Energy.

Since 2004, we have been a silent engine behind some of India's most prominent food brands. Today, led by a second generation of visionary management and backed by seasoned industry professionals, we are stepping directly onto the global stage. Our mission is clear: to bridge the gap between the raw bounty of Mahuva and the exacting standards of the international food industry.

We are
Serving the world

Aroma is more than a manufacturer, we are a second-generation family business with a global outlook. We invite you to experience the difference that Mahuva's finest produce, processed with uncompromising technology, can make for your brand.

We have
Verified standard - Trusted process

Our commitment to quality, food safety, and responsible operations is supported by recognized third-party certifications and independent audits. These credentials reflect the disciplined systems, traceability, and process control behind our dehydrated onion and garlic ingredients for global food markets. Our third-party certifications and audits help demonstrate our commitment to food safety management, responsible practices, and dependable export performance.

Dehydrated
White Onion Range

Flakes | Chopped | Minced
Granules | Powder

Built for modern food manufacturing, our dehydrated white onion range offers clean flavor, dependable performance, and consistent quality in every batch. Available in flakes, chopped, minced, granules forms and powder, it is ideal for soups, sauces, seasoning blends, ready meals, and dry mix applications. The range is developed to support efficient production, reliable formulation, and stable shelf life across diverse export markets.

Dehydrated
Red & Pink Onion Range

Flakes | Chopped | Minced
Granules | Powder

Our dehydrated red and pink onion range delivers strong flavor character and natural color appeal for products where taste and appearance matter equally. Available in multiple cut sizes including flakes, chopped, minced granules and and powder forms, it is suitable for seasoning systems, snacks, instant foods, and value-added culinary products. Backed by consistent supply and reliable product characteristics, it is a practical solution for year-round production and export requirements.

Dehydrated
Garlic Product Range

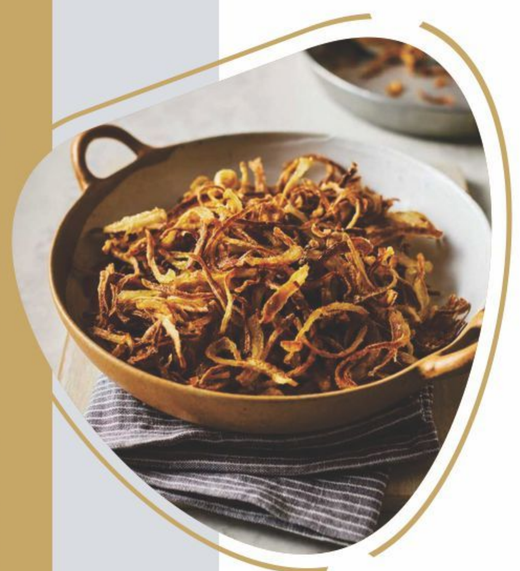

Clove | Chopped | Minced
Granules | Powder

Our dehydrated garlic range is designed to deliver bold aroma, strong flavor impact, and convenient handling for large-scale food production. Available in flakes, cloves, chopped, minced, granules, and powder forms, it is widely used in sauces, spice blends, marinades, snacks, and ready-to-eat products. With long shelf life and consistent batch quality, it supports efficient procurement and dependable export supply.

Crispy
Fried Onion

Fried Onion | Crispy Fried Onion
Bulk Fried Onion

Our crispy fried onions are crafted in the style preferred across the US and European markets, delivering light coated texture, uniform golden color, and signature crispness. Suitable for food service, retail, and industrial applications, they are available in customer-specific variants using wheat flour or corn flour coatings and palm oil or sunflower oil frying mediums. The product is also available in consumer pack formats for retail distribution, private labeling, and market-specific packaging needs.

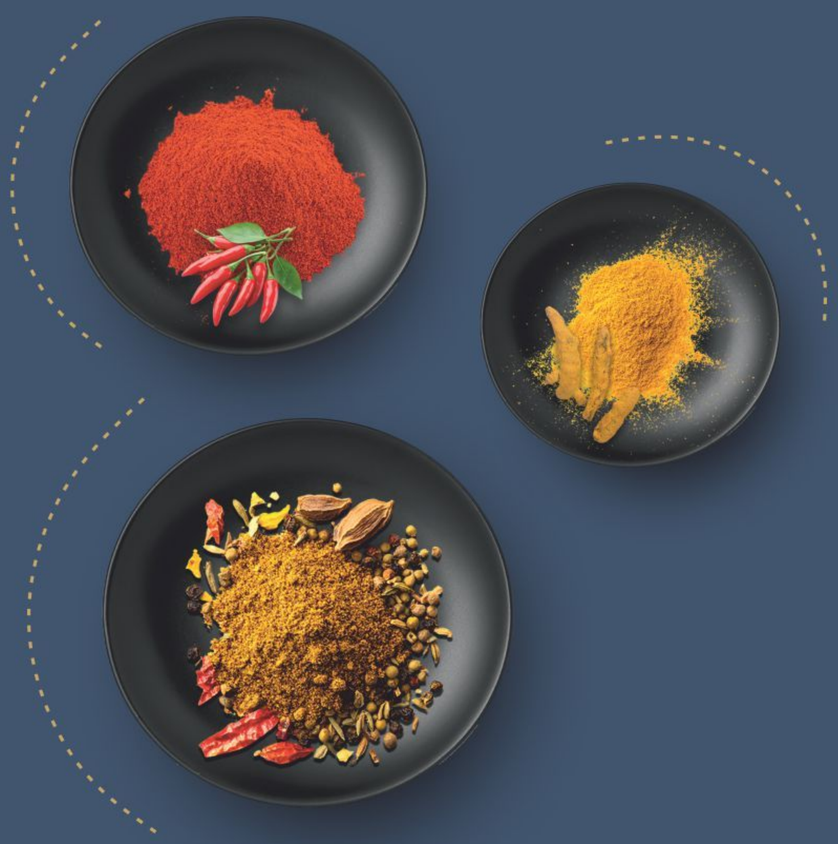

The taste of aroma

Indian
Spices Range

Red Chilli | Turmeric | Coriander | Bay Leaves
Senna Leaves |Cumin Seeds | Fennel Seeds
Flax Seeds | Fenugreek Seeds | Dill Seeds
Spice Powders

Our Indian spices combine authentic sourcing with modern processing to serve global food markets with confidence. Available as whole spices, ground spices, and custom blends, each product is handled to preserve natural aroma, color and flavor. From everyday seasoning applications to industrial formulations, the range is built for manufacturers, distributors, and private-label brands seeking export-ready quality.

Dehydrated
Shallot Range

Shallot Flakes | Shallot Chopped
Shallot Minced | Shallot Granules
Shallot Powder

Our dehydrated shallot range brings a refined allium profile with mild sweetness, subtle aroma, and excellent versatility for premium food applications. Offered in flakes, chopped, minced, granules, and powder formats, it suits seasonings, sauces, soups, spice blends, ready meals, and gourmet formulations. It is a smart ingredient choice for manufacturers seeking a delicate flavor note with dependable processing performance.
