Jayanti Herbs & Spice

Enabling better food for all, with passion and integrity

From Local Farms to Global Customers

About Us

We are a multi-country business engaged in the farming, sourcing, processing, and packing of herbs, spices, and botanicals for industrial, private label, and retail customers worldwide. Headquartered in India, we operate manufacturing facilities in India and Türkiye. We are supported by sales offices across North America, the European Union, Asia, and the UAE. Our 500+ strong, interconnected team works across eight countries and three continents.

Customer-centric by Design

Strategically located near origin, our operations enable efficient sourcing, processing, and retail packing, while customer-facing global teams ensure fast, reliable, scalable responses to partner needs.

True #Spicexperts

With decades of herbs and spices expertise, we bring deep technical, quality, and regulatory knowledge, supported by the Jayanti Direct Farmer Sourcing Program in which we partner with 3,500+ farmers to ensure traceable, consistent quality from farm to finished product.

Future-ready and Responsible

Our end-to-end value chain is built on sustainable, ethical, and safe practices. Guided by a clear vision and strong values, we strive to create lasting positive impact for our farming communities, our people, our customers, and the planet.

Sustainability at Jayanti

Sustainability is at the heart of everything we do. We strive for ethical, sustainable procurement of our products. By prioritising environmental protection, fair labour practices, and traceability throughout our supply chain, we ensure long-term resilience, community welfare, and transparent, accountable sourcing practices.

Jayanti Direct Farmer Sourcing Program (JDFSP)

3500+ Farmers, 5000 MT(approx) Farmed across the world. JDFSP empowers farmers through fair pricing, sustainable partnerships, training, and direct engagement, ensuring traceability, quality, transparency, and improved livelihoods.

Food Safety

Food safety underpins our operations, led by 100+ QA experts, with farm-to-fork traceability, robust supplier risk assessments, and sustainability initiatives spanning EPR, waste, carbon reduction, and water recycling.

Responsibility, Beyond Sourcing

We believe progress comes from shared growth, empowering communities through long-term investments in health, education, and leadership that build resilience, strengthen livelihoods, and create lasting positive impact across generations.

Capabilities

Our strength lies in our versatility. With decades of experience and a globally integrated supply chain, we serve a wide spectrum of business needs ranging from private label solutions for global retailers to bulk spice supply and our own consumer brand.
