

Divaks

**High-quality
insect protein
solutions for
premium
food products**

ABOUT US

Divaks was established in 2020 in Vilnius, Lithuania. We are a fast-growing food-tech company that provides insect protein solutions for the food industry.

OUR UNIQUE MODEL

Along with leading technology suppliers, Divaks develops fully automated vertically integrated technology from mealworms' breeding to individually crafted products for human consumption.

*Adjustable processes according to clients' requirements

OUR WAY

RESEARCH AND DEVELOPMENT

Our in-house R&D team develops various diets, insect rearing and, processing techniques to create final products with different organoleptic properties, nutritional values, and applications to meet our clients' needs.

QUALITY AND TRACEABILITY ASSURANCE

We design our factory according to strict global standards for food safety (HACCP, BRC, FSSC 22000), which allows us to ensure high-quality ingredients and a fully traceable process.

SUSTAINABLE AND NUTRITIOUS

Mealworm protein matches the quality of beef and the sustainability of many plant-based alternatives.

MEALWORMS VS BEEF VS PEAS:

Land (m2) required to produce 100 g of protein

Greenhouse gases (kg CO2-e) produced for 100 g of protein

Water (l) needed to produce 100 g of protein

Estimated protein concentration in raw material (based on dry weight), %

Completeness of essential amino acids in protein composition (PDCAAS)

● Mealworms ● Beef ● Peas
