ABOUT ARONPHARMA

SCIENCE-DRIVEN NUTRACEUTICAL INNOVATIONS

AronPharma was founded in Poland in 2018 to develop nutraceutical products grounded in science and modern biotechnology.

From the very beginning, our goal has been to introduce pharmaceutical-level standards into the food supplement industry. Every solution we develop is based on careful analysis, laboratory testing, and a deep understanding of how natural compounds influence human health.

Our innovation approach is aligned with evolving market needs, allowing us to create targeted solutions that respond to real health challenges.

OUR MISSION SCIENCE FOR BETTER QUALITY OF LIFE

- Our mission is to improve quality of life by delivering safe, scientifically validated nutraceutical products.
- We believe that innovation must go hand in hand with responsibility — toward both human health and the natural environment.
- In 2025 we planted 1 400 trees, symbolizing our long-term commitment to sustainable development.

ARONIA PART OF OUR DNA

The name of AronPharma originates from *Aronia melanocarpa*, widely considered as Superfruit, due to its exceptionally high antioxidants level. Carefully selected, standardized extracts with high concentration of bioactive compounds form the foundation of our product portfolio. As a result, every batch of our products delivers consistent quality, stability, and effectiveness.

OUR R&D EXPERTISE

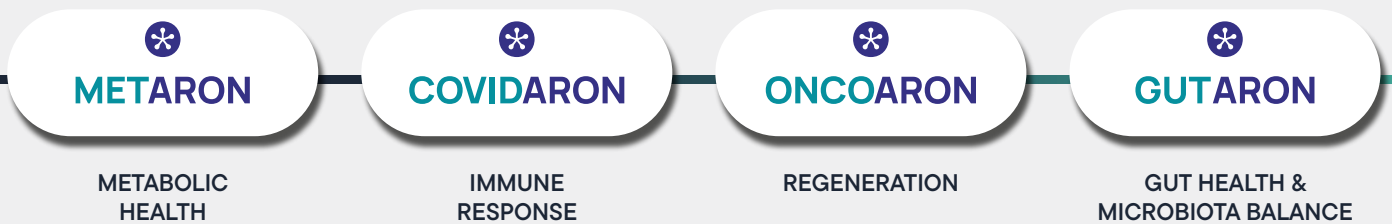

RESEARCH AT THE CORE OF EVERY FORMULA

Science drives everything we do. Our R&D Team develops new nutraceutical formulations based on preclinical research, analytical testing, and clinical studies conducted with independent institutions.

EVIDENCE-BASED NUTRACEUTICALS

Our innovative solutions based on polyphenol-rich extracts have been developed through research and development projects co-financed by the European Union.

QUALITY & MANUFACTURING

PHARMACEUTICAL-LEVEL STANDARDS

Quality is a fundamental principle at every stage of our operations. Our products are developed in accordance with applicable regulations and manufactured in certified facilities.

INTERNATIONAL PARTNERSHIP

We are present in 16 international markets, and we are collaborating with partners across different regulatory environments.

OUR PARTNERSHIP APPROACH:

- **In-House R&D & Quality Control:** Advanced formulation expertise supported by validation and stability studies with full control over the production process from raw materials to finished product.
- **Scientific & Regulatory Support:** Full technical documentation, specification sheets, stability data, quality certificates and expert support in product notification and registration procedures across EU markets.
- **End-to-End Project Management:** Transparent communication, scalable production, and long-term partnership approach through every stage of the project.

FORMS OF PARTNERSHIP

Ready-To-Market (RTM)

Scientifically developed, market-ready nutraceuticals from our portfolio enabling immediate commercialization.

Marketing

Comprehensive support for online sales activities, including product materials, technical data, and communication guidance.

White label / Private label

Clinically oriented formulations offered under your brand or developed exclusively to match your portfolio.

Packaging Design

Professional assistance in packaging and label design aligned with regulatory requirements.

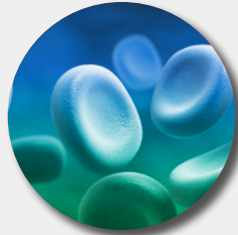

PORTFOLIO INTRODUCTION

NUTRACEUTICALS OF TOMORROW

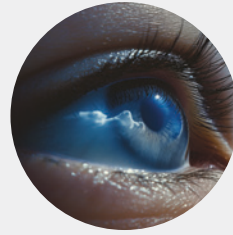

OUR PORTFOLIO INCLUDES INNOVATIVE FORMULATIONS DESIGNED TO SUPPORT KEY AREAS OF HEALTH.

IMMUNE SYSTEM

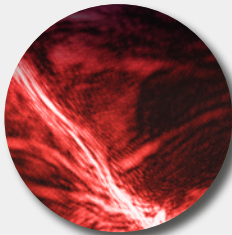

METABOLIC DISORDERS

EYE HEALTH

GUT HEALTH

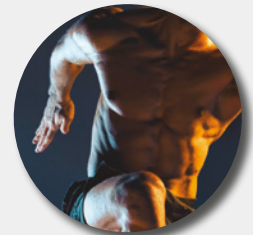

CARDIOVASCULAR SUPPORT

BEAUTY & WELLNESS

FUNCTIONAL NUTRITION

SPORT & REGENERATION

OUR AWARDS

Awards and Recognition: The Proof of Our Achievements

Our commitment has been recognized with awards celebrating both our company and our innovative products.

Berroxin®

Immune System Support

CREATED FROM THE NEED TO SUPPORT THE IMMUNE SYSTEM

Berroxin® is a specialized line of advanced nutraceuticals developed through scientific precision and proprietary laboratory expertise at AronPharma. Powered by Fenactive® and Rescovin® formulations, the line utilizes high Drug Extract Ratios up to 70:1 to deliver standardized bioactives for maximum efficiency.

- Rescovin® is clinically tested, backed by data published in prestigious journals, and patent pending.
- Fenactive® is laboratory tested, supported by published scientific data, and holds a patented antiviral application.
- Suitable for supplementation in various formats, including: syrups, capsules, gummies, lollipops.

Berroxin® offers premium support for the whole family and has earned prestigious industry recognition for its scientifically backed effectiveness and high plant concentrations.

COVIDARON
EU PROJECT

*Rescovin® is a composition of standardized botanical extracts carefully selected for their complementary properties and combined in scientifically developed proportions as part of a **3-year-long R&D project CovidAron co-financed by the European Union.***

CovidAron project focused on the development of a botanical blend which supports the body's immune response and alleviates the symptoms of upper respiratory tract infections.

RESCOVIN® – OUR SIGNATURE BLEND

Clinically proven to reduce the number and intensity of upper respiratory tract infection symptoms.

- **Composition:** A unique combination of aronia, haskap berry, and echinacea (herb and root) extracts.
- **Double Standardization:** Precise content of 35% polyphenols and 0,2% cichoric acid.
- **Maximum Concentration:** Utilizes technology allowing for a DER of 70:1, the highest level of bioactive substance concentration.
- **Function:** Engineered to modulate natural defense mechanisms and protect cells against oxidative stress.

Products with Rescovin®: Berroxin® Complex Max

PATENT PENDING NO. P.444627, P.446422

Pharmaceutical composition supporting the immune system before and during upper respiratory infection.

PUBLISHED DATA

Berroxin® Complex Max

30
HPMC capsules

Active Ingredient	1 capsule
Rescovin® DER 70:1 - blend of aronia, haskap berry, echinacea herb and root extracts, of which:	200 mg
polyphenols 35%	60 mg
cichoric acid 0,2%	0,4 mg
Vitamin D (liposomal form)	50 µg / 2000 IU
Zinc (liposomal form)	10 mg

Built around the Rescovin® blend, which combines the antioxidant and anti-inflammatory properties of aronia and haskap berry fruits with the immunostimulatory activity of echinacea herb and root.

It offers multi-directional support for the alleviation of symptoms and the prevention of upper respiratory tract infections.

FENACTIVE®

FENACTIVE® – INNOVATIVE POLYPHENOLIC COMPOSITION

- Composition: A synergistic blend of extracts from elderberry and aronia fruits.
- Standardization: Guaranteed minimum content of 25% polyphenols.
- High concentration (DER 55:1): 55 kg of selected fruit are used to produce 1 kg of extract.
- Scientific verification: Proven antiviral and immunomodulatory potential confirmed in preclinical studies.

Products with Fenactive®: Berroxin® Immuno Family, Berroxin® Gummies, Berroxin® Immuno Kids, Berroxin® Lollipop, IBS Complex

PATENT NO. 245254
Antiviral application of the preparation.

PUBLISHED DATA

Inhibition of Human Respiratory Influenza A Virus and Human Betacoronavirus-1 by the Blend of Double-Standardized Extracts of Aronia melanocarpa (Michx.) Elliot and Sambucus nigra L.
Published in: Pharmaceuticals, IF: 4,8

Berroxin® Immuno Family

120 ml
pasteurized syrup

A specialized syrup based on a patented antiviral blend - Fenactive®, polyphenol-rich composition of highly concentrated aronia and elderberry fruit extracts. Its primary advantage is a clean composition based on agave syrup with a low glycemic index, making it a safer alternative to sucrose-laden products.

Each bottle concentrates the bioactive strength of nearly 300 g of fruit, ensuring high antioxidant stability and comprehensive respiratory support for both children and adults.

Active Ingredient	10 ml
Fenactive® DER 55:1 - blend of elderberry and aronia fruit extracts, of which:	450 mg
polyphenols 25%	112,5 mg
Marshmallow root extract DER 4:1	95 mg
Dog rose fruit extract DER 4:1	95 mg
Elderberry juice concentrate	500 mg
Zinc	2 mg

Forminol®

Blood Glucose Level Support

ADVANCED FORMULAS FOR COMPREHENSIVE GLUCOSE
AND NUTRIENT METABOLISM SUPPORT

Forminol® is a specialized line of advanced nutraceuticals developed through scientific precision and proprietary laboratory expertise at AronPharma. Powered by AP029 blend, the line utilizes a carefully selected choice of plant extracts to deliver standardized bioactives for maximum efficiency.

- AP029 blend is clinically tested, backed by data published in peer-reviewed journals, and patent pending.
- Available in various formats, including capsules and pectin-based gummies, with the possibility of further adaptation into other dosage forms by our R&D team.
- The adult formulations employ acid-resistant DRcaps® and liposomal technology for targeted intestinal release of high-dose anthocyanins and micronutrients. Meanwhile,
- the pectin-based gummies offer a sugar-free, functional solution for children and adults to stabilise energy levels and support macronutrient metabolism throughout the day.

Forminol® offers premium family support for metabolic functions, with scientifically backed effectiveness.

METARON
EU PROJECT

AP029 blend is a composition of standardized botanical extracts carefully selected for their complementary properties and combined in scientifically developed proportions as part of a 4-year-long R&D project MetAron, co-financed by the European Union.

MetAron project focused on the development of a botanical blend for diabetes management, including clinical synergy with metformin, improving blood glucose regulation and insulin sensitivity in prediabetic states.

AP029 - OUR SIGNATURE BLEND

AP029 synergizes with metformin, significantly increasing glucose uptake by fat cells and activating ACC

- Composition: A unique combination of elderberry, aronia, blackcurrant fruit extracts.
- Glycemic Control & Synergy: Lowers glucose and insulin levels, working with metformin to glucose uptake.
- Metabolic Function: Enhances glucose absorption in fat cells for stable metabolic health.
- Lipid & Liver Support: Improves metabolism by lowering triglycerides and slowing lipid synthesis.

Products with AP029: Forminol[®], Forminol[®] Gummies, Retico[®] DR

PATENT PENDING NO. P.444522

Pharmaceutical composition supporting the treatment of diabetes.

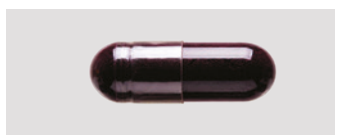

PUBLISHED DATA

Exploring the Potential of *Ribes nigrum* L., *Aronia melanocarpa* (Michx.) Elliott, and *Sambucus nigra* L. Fruit Polyphenol-Rich Composition and Metformin Synergy in Type 2 Diabetes Management
Published in: Journal of Functional Foods, IF: 3,4

Forminol[®]

30
HPMC DRcaps[®] capsules

Active Ingredient	1 capsule
AP029 - blend of elderberry, aronia, blackcurrant fruit extracts	200 mg
Folate (methyl)	200 µg
Vitamin B ₁₂ (liposomal form)	100 µg
Chromium	40 µg

A high-potency nutraceutical featuring the AP029 blend with liposomal vitamin B₁₂, methylfolate, and chromium. The acid-resistant DRcaps[®] technology protects the active ingredients, ensuring targeted release in the small intestine. This formula is specifically designed to improve metabolic severity, act in synergy with metformin, address common nutrient deficiencies in diabetic patients, and support healthy homocysteine levels through superior systemic absorption.

Forminol[®] Gummies

60
pectin gummies

Active Ingredient	2 gummies
AP029 - blend of elderberry, aronia, blackcurrant fruit extracts	100 mg
Zinc	4 mg
Vitamin B ₆	2 mg
Chromium	20 µg

These pectin-based, sugar-free gummies combine the AP029 blend with zinc, chromium, and vitamin B₆ to stabilize energy levels and macronutrient metabolism. Designed to reduce appetite and prevent glycemic fluctuations, they provide functional support energy-yielding metabolism. The clean-label formula offers a precise, child-friendly alternative to support metabolic health in individuals with poor dietary habits.

Melarginol®

Heart & CVS Support

ADVANCED CARDIOVASCULAR PROTECTION
BASED ON PROPRIETARY ARONIA EXTRACT AND CLINICAL RESEARCH

Melarginol® is a specialized nutraceutical developed through scientific precision and proprietary laboratory expertise at AronPharma. Powered by polyphenols, the product utilizes a highly concentrated aronia fruit extract to deliver standardized bioactives for maximum efficiency.

Melarginol®

30
HPMC capsules

Active Ingredient	1 capsule
L-arginine	300 mg
Aronia fruit extract DER 70:1, of which:	200 mg
polyphenols 50%	100 mg
Vitamin E	10 mg
Vitamin A	800 µg
Folate (methyl)	400 µg
Chromium	40 µg

- Based on polyphenol-rich aronia extract, backed by clinical and *in vitro* data published in a peer-reviewed journals.
- Enriched with L-arginine and biologically active calcium methylfolate to support vessel repair and elasticity.
- Suitable for supplementation in form of capsules, with the possibility of further adaptation into other dosage forms by our R&D team.

Melarginol® offers premium support for cardio-vascular system function, with scientifically backed effectiveness.

ARONIA FRUIT EXTRACT

ARONIA FRUIT EXTRACT - SCIENTIFICALLY PROVEN EFFECTIVENESS

Effectiveness in modulating lipid markers provides a viable strategy for maintaining cardiovascular well-being

- **Ingredient:** double-standardized extract from aronia fruit with stable content of 50% polyphenols.
- **Cholesterol Reduction:** Six weeks of supplementation lowered cholesterol levels by approx. 11%.
- **Vascular Protection:** Significantly reduces homocysteine and improves the LDL-to-HDL ratio.
- **Proven Efficacy:** Effectively modulates lipid markers to support overall cardiovascular health.

Products with aronia fruit extract: Melarginol®, Yanesse® B-Complex, B-PAC® B-Complex, B-PAC® Cherry Recovery

IBS Complex

Intestinal balance & comfort

A SCIENCE-BASED NUTRITION PROGRAM FOR ALL TYPES OF IRRITABLE BOWEL SYNDROME (IBS)

IBS Complex

30 capsules
+ 30 sachets

Active Ingredient - capsule	1 capsule
Fenactive® DER 55:1, blend of elderberry and aronia fruit extract of which:	200 mg
25% polyphenols	50 mg
Active Ingredient - sachet	1 sachet
PHGG (partially hydrolyzed guar gum)	5 g
<i>Saccharomyces boulardii</i> SP92	250 mg
<i>Bifidobacterium animalis</i> subsp. <i>lactis</i> BS01 (LMG P-21384)	5 x 10 ⁹ CFU*
<i>Bifidobacterium lactis</i> UABla-12™	1 x 10 ¹⁰ CFU*
<i>Bifidobacterium animalis</i> subsp. <i>lacti</i> BLC1	5 x 10 ⁹ CFU*

*CFU - Colony Forming Units

IBS Complex is a food for special medical purpose that supports all types of Irritable Bowel Syndrome in a form of capsule-sachet system. It provides support in dietary management of:

- intestinal flora disorders,
- colonic diseases,
- nutritional deficiencies,
- functional disorders of the digestive system.

It contains clinically tested composition consisting of PHGG - low FODMAP dietary fiber, Fenactive® - standardized blend of berry fruits extracts and carefully chosen probiotic yeast and bacteria strains.

Retico®

Vision Support

SCIENTIFIC SUPPORT FOR BLUE LIGHT EXPOSURE, AMD
AND DIABETIC RETINOPATHY RELATED EYE PROBLEMS

Retico Line

The Retico® line is built around clinically tested blends of standardized botanical extracts - Oculoxin® and AP029 - carefully selected for their complementary properties. These compositions are engineered to proactively protect the ocular system against modern environmental challenges.

Featuring our awarded flagship product, the line is supported by a robust portfolio of published research in peer-reviewed journals.

- Retico® and Retico® Gummies provide proactive retinal protection and mitigate digital fatigue for people exposed to digital screens (office workers, students).
- Retico® Gold serves as the gold standard in ocular support by providing specialized macular protection for older adults at risk of age-related macular degeneration (AMD).
- Retico® DR delivers a dual-action formula that strengthens fragile retinal capillaries and supports metabolic glycemic balance for people with diabetes or early-stage diabetic retinopathy.

OCULOXIN®

OCULOXIN® - SYNERGY OF ACTIVE INGREDIENTS

Significant improvement of near visual acuity and conjunctival hydration using high-potency plant extracts

- Composition: A synergic blend of extracts from aronia, bilberry, and haskap berry fruit.
- Vision & Hydration: Improved near visual acuity in 92,3% of patients and eye lubrication in 80%.
- Preclinically tested: Exhibits antioxidant, anti-inflammatory and cytoprotective properties in a human retinal cell model.
- Bioactive Richness: High standardized doses of protective anthocyanins and unique plant iridoids.

Products with Oculoxin®: Retico®, Retico® Gummies, Retico® Gold

Retico®

30
HPMC capsules

Active Ingredient	1 capsule
Oculoxin® - blend of extracts from aronia fruit DER 70:1, bilberry fruit DER 60:1, haskap fruit DER 75:1, of which:	150 mg
anthocyanins 25%	37,5 mg
Rutin	25 mg
Vitamin B ₆	3 mg
Folate (methyl)	400 µg
Vitamin B ₁₂	100 µg

The flagship product in the line, recognized with the Gold Medal at NutraFood Poland 2023 and as a Finalist for the 2025 Vitafoods Europe Innovation Awards. It delivers a potent portion of the Oculoxin® complex combined with bioactive, methylated forms of vitamin B₁₂ and folate for maximum bioavailability. Clinically proven to reduce visual fatigue and eye dryness caused by screen exposure.

Retico® Gummies

60
pectin gummies

Active Ingredient	2 gummies
Oculoxin® - blend of extracts from aronia fruit DER 70:1, bilberry fruit DER 60:1, haskap fruit DER 75:1, of which:	120 mg
anthocyanins 25%	30 mg
Zinc	4 mg
Vitamin B ₂	1,12 mg
Vitamin A	640 µg

Sugar-free pectin gummies offering a convenient and tasty format for children and adults. Based on the standardized Oculoxin® extract, they provide essential antioxidants and nutrients to help maintain normal vision. This clean-label product supports eye regeneration during intense screen exposure while avoiding unnecessary additives, ensuring a safe and effective solution for daily ocular care.

A specialized formula representing the "gold standard" in retinal and macular protection, specifically designed for adults and seniors at risk of age-related macular degeneration (AMD). It combines the Oculoxin® complex with lutein and zeaxanthin, which act as natural filters against blue light and support macular pigment density. These ingredients work synergistically to protect photoreceptors from oxidative damage and support long-term visual clarity and macular health.

Retico® Gold

30
HPMC capsules

Active Ingredient	1 capsule
Oculoxin® - blend of extracts from aronia fruit DER 70:1, bilberry fruit DER 60:1, haskap fruit DER 75:1, of which:	100 mg

Lutein	15 mg
Zeaxanthin	0,75 mg
Vitamin A	400 µg

AP029 - OUR SIGNATURE BLEND

AP029 synergizes with metformin, significantly increasing glucose uptake by fat cells and activating Acetyl-CoA carboxylase (ACC)

- Composition: A unique combination of elderberry, aronia, blackcurrant fruit extracts.
- Glycemic Control & Synergy: Lowers glucose and insulin levels, working with metformin to boost uptake.
- Metabolic Function: Enhances glucose absorption in fat cells for stable metabolic health.
- Lipid & Liver Support: Improves metabolism by lowering triglycerides and slowing lipid synthesis.

Products with AP029: Forminol®, Forminol® Gummies, Retico® DR

A targeted dual-action formula developed for individuals with diabetic retinopathy and metabolic risks. It features the patent-pending AP029 blend combined with chromium and zinc to support glycemic balance and insulin sensitivity. Simultaneously, it strengthens fragile retinal capillaries, reduces vascular permeability, and prevents intraocular micro-bleeding, providing specialized protection for the eye's microvascular system.

Retico® DR

30
HPMC capsules

Active Ingredient	1 capsule
Bilberry fruit extract, of which:	240 mg
anthocyanins 25%	60 mg
AP029 blend of elderberry, aronia, blackcurrant fruit extracts	100 mg
Rutin	50 mg
Zinc	5 mg
Riboflavin (vitamin B ₂)	1,4 mg
Chromium	40 µg

Recovery & Regeneration

Innovative solutions

A SPECIALIZED LINE
DEVELOPED FOR PATIENTS REQUIRING INTENSIVE TISSUE REGENERATION

The specialized line of advanced nutraceuticals developed through scientific precision and proprietary preclinical expertise at AronPharma. Powered by AP119 blend, the line utilizes a carefully selected choice of plant extracts to deliver standardized bioactives for maximum efficiency.

- AP119 is backed by *in vitro* research reported in a peer-reviewed journal, together with clinical trial data that are currently awaiting publication and patent pending.
- Available in various formats, including throat spray and water-soluble powders, with the possibility of further adaptation into other dosage forms by our R&D team.

Recovery and Regeneration line offers premium support for tissue regeneration and post-hospitalization care, with scientifically backed effectiveness.

ONCOARON
EU PROJECT

AP119 blend is a composition of standardized botanical extracts carefully selected for their complementary properties and combined in scientifically developed proportions as part of a 4-year-long R&D project OncoAron, co-financed by the European Union.

OncoAron project focused on the development of a botanical blend to prevent and minimize side effects induced by chemotherapy and radiotherapy. Beyond the oncological care, the research focused on mucosal regeneration and anti-inflammatory activity.

 **AP119**

AP119 - OUR SIGNATURE BLEND

Clinically tested innovative polyphenolic composition for recovery support

- **Composition:** A unique combination of extracts from elderberry, aronia, blackcurrant fruit, and primrose seed.
- **Improved Quality of Life:** Significant post-surgery psychological and environmental well-being.
- **Antioxidant & Anti-Inflammatory Support:** Helps reduce oxidative stress and supports inflammatory balance.
- **Postoperative Inflammatory Support:** Helps reduce inflammatory markers.

Products with AP119: Throat Spray,
Nutri Powder Food Supplement, NutriPowder FSMP

PATENT PENDING NO. P.446092

Pharmaceutical composition supporting oncology patients during radiotherapy and healthy individuals exposed to ionizing radiation.

PUBLISHED DATA

Radioprotective Potential of a Polyphenol-Rich Extract Blend: Preclinical Evaluation in Female Balb/c Mice Exposed to Ionizing Radiation

Published in: International Journal of Molecular Sciences, IF: 4,9

Throat Spray

30 ml
18 daily portions

Active Ingredient	1,6 ml
AP119 blend of extracts from elderberry, aronia, blackcurrant fruit and primrose seed, standardized to 35% polyphenols	40 mg
Icelandic moss dry extract DER 4:1	9,60 mg
Hyaluronic acid	0,64 mg
Niacin (vitamin B ₃)	2,4 mg
Riboflavin (vitamin B ₂)	0,42 mg

AP119

A scientifically-backed formula containing the AP119 blend, hyaluronic acid, and icelandic moss extract. Designed to hydrate and regenerate throat mucous membranes, it is ideal for patients with xerostomia or post-radiotherapy complications. Clinical studies confirm dysphagia relief and improved swallowing comfort within an average of 4 day. It provides a protective barrier, supporting natural epithelial recovery.

NutriPowder

Food Supplement

30
sachets

Active Ingredient	1 sachet
Fibregum® (acacia fiber)	3000 mg
L-glutamine	1000 mg
AP119 blend of extracts from elderberry, aronia, blackcurrant fruit and primrose seed, standardized to 35% polyphenols	200 mg
Ginger root extract	200 mg
Zinc	10 mg
Niacin (vitamin B ₃)	8 mg
Riboflavin (vitamin B ₂)	1,4 mg

AP119

A food supplement designed for daily recovery support and transition back to regular eating. Combining AP119 with ginger, zinc, and B-vitamins, it boosts immune function and reduces fatigue. The formula aids digestion and relieves nausea, making it an optimal solution for everyday maintenance and mild gut support during the convalescence period.

NutriPowder

Food for Special Medical Purpose

30
sachets

Active Ingredient	2 sachets

Fibregum® (acacia fiber)	5000 mg
AP119 blend of extracts from elderberry, aronia, blackcurrant fruit and primrose seed, standardized to 35% polyphenols	800 mg
Oat beta-glucan	600 mg

AP119

A Food for Special Medical Purpose for intensive dietary management under medical supervision. Each portion provides high portions of AP119, Fibregum®, and L-glutamine to support gut barrier integrity. Results show that AP119 supplementation further aids recovery by boosting the immune system and reducing post-operative pain and swelling, resulting in reported improvements in patients' overall psychological and environmental well-being.

Yanesse®

Beauty from within

WOMEN'S HEALTH AND BEAUTY POWERED BY SCIENCE

A specialized product line dedicated to women's health and beauty, built on the principle of "Beauty from within". These formulas are powered by science to provide comprehensive support for the female body and mind, combining advanced biotechnology with a deep understanding of daily physiological needs and aesthetic goals.

The Yanesse® line has been designed to effectively support women in optimizing their natural beauty, hormonal balance, and vitality. By addressing specific needs, from collagen formation and antioxidant protection to metabolic support and stress resilience - these supplements offer a holistic way to maintain a radiant appearance and daily well-being from the inside out.

Main Features

- Science-driven approach to women's health and beauty
- Innovative Day & Night solutions tailored to the body's daily cycle
- Comprehensive solutions for skin, hair, nails, and metabolic balance
- Versatile formats tailored to modern lifestyles, from sugar-free gummies to water-soluble powders
- Premium raw materials

Yanesse® Beauty Caps Day & Night

THE BEAUTY SYSTEM FOR HAIR, NAILS, AND SKIN

An innovative solution in the beauty supplements category. The product is based on two complementary formulas – Day and Night – enclosed in separate jars. This supports the body's circadian rhythm by delivering active ingredients exactly when they are most needed.

ARONVIT® - THE POLYPHENOL SECRET TO TIMELESS BEAUTY

Designed to provide concentrated antioxidant power in a clean-label, plant-based form

- Provides antioxidant protection at the cellular level – helping the body counteract everyday oxidative stress associated with aging, fatigue, and environmental exposure.
- Promotes healthy vascular reactivity and capillary circulation – relevant for skin tone, thermoregulation, and cardiovascular comfort.

Products with Aronvit®: Melarginol®, Yanesse® B-Complex, B-PAC® B-Complex, B-PAC® Cherry Recovery

Yanesse® B-Complex

60
HPMC capsules

Active Ingredient	2 capsule
Aronvit® - standardized aronia fruit extract DER 70:1, of which	100 mg
polyphenols 50%	50 mg
Niacin (vitamin B ₃)	15 mg
Pantothenic acid (vitamin B ₅)	8 mg
Vitamin B ₆	6 mg
Thiamine (vitamin B ₁)	3 mg
Riboflavin (vitamin B ₂)	2,5 mg
Folate (methyl)	200 µg
Vitamin B ₁₂	75 µg

A high-strength blend of B-vitamins, enriched with Aronvit® aronia extract, naturally rich in polyphenols and anthocyanins. This advanced formula supports healthy skin, hormonal balance, energy metabolism, vitality, mental clarity, and resilience to stress - making it ideal for active individuals seeking daily support for body and mind.

Containing FibreGum™ (Acacia seyal gum), it is a natural, high-quality source of fiber suitable for vegan, vegetarian and slimming diets - an easy way to support daily nutrition and a light feeling every day.

Yanesse® Vegan Collagen Booster

30 sachets with powder

Flavour:  Grapefruit - orange

Active Ingredient	1 sachet
VeCollal® - vegan collagen biomimetic	5000 mg
Horsetail herb extract, of which:	100 mg
silica 2%	2 mg
Sodium hyaluronate	50 mg
Zinc	5 mg
Biotin	1 mg
Copper	0,5 mg
Vitamin A	480 µg

A plant-based supplement with VeCollal® - vegan collagen biomimetic - sodium hyaluronate, and horsetail extract, created to support beauty from within. It helps maintain healthy hair, skin, and nails, protects cells from oxidative stress, and is an ideal choice for those following a vegan lifestyle.

Yanesse® Liposomal Collagen

30 sachets with powder

Flavour:  Elderberry - lime

Active Ingredient	1 sachet
Fish collagen (liposomal form)	4300 mg
Vitamin C	90 mg

A convenient single-serving sachets, combining Liposovit®-Collagen with vitamin C and a refreshing elderberry-lime flavour. The liposomal form enhances absorption, supporting normal collagen formation for healthy skin function and helping protect cells from oxidative stress. Perfect for those who want to care for their skin from within.

Yanesse® Glutathione

30 sachets with powder

Flavour:  Raspberry - beetroot

Active Ingredient	1 sachet
Glutathione (liposomal form)	500 mg

A concentrated form of the body's key antioxidant, designed in a liposomal formula for superior bioavailability. With its pure, natural composition, it supports detoxification, antioxidant defence, and helps maintain radiant, healthy-looking skin.

Food supplements for special health use

EFFECTIVE RESPONSE TO DIVERSE NEEDS

Main Features

A comprehensive product line developed to address specific biological needs through high-quality, targeted formulas. The range offers reliable support by ensuring real impact on the body and improving everyday comfort through an evidence-based approach.

The line includes specialized solutions for women and men planning to become parents, support during pregnancy, and regulation of hormonal processes. The formulas also address the needs of athletes and vegans, as well as challenges related to regeneration, stress, and cognitive functions.

- High-quality, purposeful ingredients selected for their specific biological impact
- Direct response to biological needs through precision-engineered compositions
- Targeted formulas addressing areas requiring special physiological attention
- Evidence-based solutions providing reliable results and systemic support
- Advanced composition standards focused on high-quality raw material selection
- Holistic range of needs covered by a specialized and integrated product line

Sleep Balance

60
pectin gummies

Active Ingredient	1 gummy
Tart cherry fruit extract DER 50:1	30 mg
Lemon balm leaf extract DER 10:1	30 mg
Valerian root extract DER 10:1	10 mg
Melatonin	1 mg
Vitamin B ₆	0,5 mg

Pectin gummies with melatonin, lemon balm, and valerian extracts to reduce sleep onset time. The formula includes tart cherry extract to support healthy melatonin levels, made from 50 kg of fruit per 1 kg of extract. Vitamin B₆ supports normal nervous system function, facilitating a calm bedtime routine.

Deep Sleep

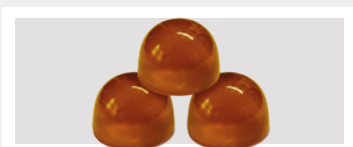

60
HPMC capsules

Active Ingredient	1 capsule
Valerian root extract DER 4:1	240 mg
Reishi fruiting body extract, of which:	150 mg
polysaccharides	45 mg
Vitamin B ₆	1,4 mg
Melatonin	1 mg

Nocturnal regeneration and easier sleep onset facilitated by melatonin. The formula combines valerian to support natural sleep with Reishi mushroom extract. Vitamin B₆ optimizes nervous system function to promote effective rest.

MultiVitamins

60
pectin gummies

Active Ingredient	2 gummies
Vitamin C	80 mg
Vitamin E	12 mg
Niacin	8 mg
Vitamin B ₆	1,4 mg
Vitamin A	400 µg
Folic acid	200 µg
Biotin	50 µg
Vitamin B ₁₂	2,5 µg

Vitamin complex for adults for the support of the general health and prevention of vitamin deficiencies. The formula combines vitamins A, C and E with selected group B vitamins - B₆, B₁₂, biotin, folic acid and niacin.

Reproduction and testosterone maintenance supported by zinc. Maca root extract supports sexual function, while selenium aids spermatogenesis. The choice of nutrients based on recommendations of The Polish Society of Gynecologists and Obstetricians.

Fertility Man

60
HPMC capsules

Active Ingredient	2 capsules
Maca root extract DER 4:1	400 mg
L-arginine	150 mg
Zinc	10 mg
Folic acid	400 µg
Selenium	55 µg

Male potential and vital vigor supported by Ashwagandha KSM-66®. Zinc contributes to reproductive health, while selenium supports spermatogenesis. The choice of nutrients based on recommendations of The Polish Society of Gynecologists and Obstetricians.

Fertility Man+

60
HPMC capsules

Active Ingredient	2 capsules
Ashwagandha root extract KSM-66®, of which:	200mg
withanolides 5%	10 mg
L-arginina	150 mg
Zinc	10 mg
Folic acid	400 µg
Selenium	55 µg

Energy metabolism supported by vitamins B and C. Iron aids oxygen transport, while Siberian ginseng enhances endurance and defence from physical and psychological stress. The formula helps replenish nutrients depleted by high physical activity.

Sport Power

60
HPMC capsules

Active Ingredient	1 capsule
Siberian ginseng root extract	250 mg
Vitamin C	80 mg
Niacin (vitamin B ₃)	16 mg
Iron	14 mg
Riboflavin (vitamin B ₂)	1,4 mg
Thiamine (vitamin B ₁)	1,1 mg

Fertility Woman

60
HPMC capsules

Active Ingredient	2 capsules
Myo-inositol	500 mg
Zinc	10 mg
Vitamin B ₆	1,4 mg
Folic acid	400 µg

The formula contains myo-inositol. Normal fertility and reproduction supported by zinc, and maternal tissue growth during pregnancy contributed by folate. Vitamin B₆ contributes to hormonal activity. The formula based on recommendations of The Polish Society of Gynecologists and Obstetricians.

Pregna Care

60
HPMC capsules

Active Ingredient	1 capsule
Choline bitartrate VitaCholine®	450 mg
Vitamin B ₆	1,9 mg
Folic acid	600 µg
Vitamin B ₁₂	2,6 µg

Maternal tissue growth supported by active folate. Vitamins B₆ and B₁₂ contribute to hormonal balance. Features patented VitaCholine®. The formula based on recommendations of The Polish Society of Gynecologists and Obstetricians.

PMS Relief

60
HPMC capsules

Active Ingredient	1 capsule
Ashwagandha root extract KSM-66®, of which:	100 mg
withanolides 5%	5 mg
Chaste tree fruit extract, of which:	30 mg
agnuside 0,5%	150 µg
casticin 0,5%	150 µg
Zinc	10 mg
Vitamin B ₆	1,4 mg

Menstrual cycle comfort provided by standardized chaste tree fruit extract. Ashwagandha KSM-66® supports physical and mental well-being, while vitamin B₆ contributes to hormonal regulation during the cycle.

Relief from hot flushes, sweating, and irritability provided by red clover, with the addition of the hop cone extract. These ingredients support menopausal comfort, while vitamin B₆ contributes to hormonal regulation.

Menopause Comfort

60
HPMC capsules

Active Ingredient	2 capsules
Red clover extract of which:	500 mg
isoflavones 8%	40 mg
Hop cone extract	200 mg
Vitamin B ₆	1,4 mg

Reduction of hot flushes and irritability through red clover and patented hop cone extract Lifenol[®]. Zinc and vitamin D support bone health, while vitamin B₆ contributes to hormonal regulation.

Menopause Comfort+

60
HPMC capsules

Active Ingredient	2 capsules
Red clover extract, of which:	500 mg
isoflavones 8%	40 mg
Hop cone extract Lifenol [®] , of which:	85 mg
8-prenylnaringenin 0,15%	128 µg
Zinc	10 mg
Vitamin B ₆	1,4 mg
Vitamin D	20 µg / 800 IU

Concentration boost and mental clarity through lion's mane and Cereboost[™]. Pantothenic acid supports cognitive function, while vitamin B₆ maintains mental performance and reduces fatigue.

Mental Focus

60
HPMC capsules

Active Ingredient	2 capsules
Lion's mane fruiting body extract of which:	300 mg
polysaccharides min. 30%	90 mg
Cereboost [™] American ginseng root extract of which:	200 mg
ginsenosides 10%	20 mg
Pantothenic acid (vitamin B ₅)	6 mg
Vitamin B ₆	1,4 mg

Relax Support

60
HPMC capsules

Active Ingredient	2 capsules
Serenzo™ Sweet orange peel extract of which:	500 mg
limonen 20%	100 mg
Vitamin B ₆	2,8 mg
Vitamin B ₁₂	25 µg

Pure relaxation and mind stability supported by patented and clinically tested Serenzo™ extract. Vitamins B₆ and B₁₂ aid normal nervous system function during stressful periods.

Relax Support +

60
HPMC capsules

Active Ingredient	2 capsules
Zensera™ (lemon balm extract), of which:	300 mg
rosmarinic acid 7-15%	21 mg
cinnamic acid derivatives 14-25%	42 mg
Vitamin B ₆	2.8 mg
Vitamin B ₁₂	25 µg

Stress relief and mental balance supported by clinically tested Zensera™ extract. Lemon balm aids night regeneration and calm rest, while vitamins B₆ and B₁₂ optimize nervous system function.

Vegan Complex

60
HPMC capsules

Active Ingredient	1 capsule
Acerola fruit extract, of which:	100 mg
vitamin C 80%	80 mg
Zinc	10 mg
Iron	7 mg
Folic acid	600 µg
Iodine	150 µg
Selenium	55 µg
Vitamin B ₁₂	25 µg

Nutrient gap coverage for plant-based diets. Vitamin B₁₂ and iron support blood formation, while zinc aids macronutrient metabolism. Acerola-derived vitamin C increases iron absorption.

B-PAC®

Comprehensive sport nutrition

SYNERGY OF SCIENTIFIC KNOWLEDGE AND ATHLETES' EXPERIENCE

The sports line products are developed in laboratories by a team of experts combining scientific knowledge with practical experience, which guarantees their high quality and effectiveness.

Each formula is precisely balanced to provide optimal support for the body during intense training and in the crucial recovery phase.

The supplements have been designed to effectively support athletes in optimizing energy, performance, antioxidant protection, and reducing recovery time.

The formulas in the B-PAC® line are based on the highest-quality ingredients, which are carefully selected to meet the body's specific needs, ensuring that each product offers specialized support.

We focus on unique formulations that incorporate innovative solutions, such as the record-breakingly concentrated Aronvit® (DER 70:1) to support the cardiovascular system. Selected products in the sports line also contain tart cherries to support recovery, as well as liposomal vitamins and minerals, which, thanks to advanced technology, guarantee the highest possible bioavailability of active ingredients.

This individualized formulation approach allows us to create targeted and effective supplements for active individuals, based on reliable scientific knowledge.

Main Features

- Expert formulas developed in laboratories
- A combination of advanced science and sports practice
- Precisely balanced training and recovery support
- Regular quality and safety checks of ingredients
- Full transparency and a substantive approach to recipes
- Solutions aimed at overcoming physiological barriers

TART CHERRY

Tart cherry extract is a premier, bio-active "superfood" solution that redefines athletic recovery

- **Ingredient:** standardized tart cherry extract with precise content of 15% polyphenols and 3% anthocyanins.
- **Inflammation & Recovery:** High antioxidant levels reduce inflammatory markers by 25%.
- **Reduced Soreness:** Protects muscles from damage for a quicker, less painful return to training.
- **Strategic Regeneration:** A 5-day loading protocol and natural melatonin optimize nighttime recovery.

Products with tart cherry: B-PAC® Shot, B-PAC® Cherry Recovery, Sleep Balance

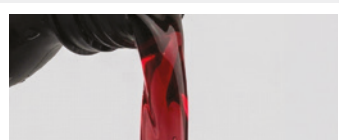

1. Connolly DA, et al. *Efficacy of a tart cherry juice blend in preventing symptoms of muscle damage.* Br J Sports Med. 2006;40(8):679-83.
2. Jacob RA, et al. *Consumption of cherries lowers plasma urate in healthy women.* J Nutr. 2003;133(6):1826-9.

The form of a 100 ml shot, part of the innovative B-PAC® line of supplements for athletes and physically active individuals. It combines: tart cherry and aronia fruit extract, a daily portion of magnesium in the form of citrate salt, and vitamin B₆.

B-PAC® Shot

1 shot

Flavour: ■ Cherry

Active Ingredient	100 ml
Tart cherry extract DER 40:1, of which:	50 mg
polyphenols 15%	7,5 mg
Magnesium	375 mg
Vitamin B ₆	1,4 mg

A food supplement rich in polyphenols and anthocyanins, designed for athletes and physically active individuals. It contains double-standardized extracts of tart cherry and aronia. The package contains 60 capsules of the highest quality tart cherry and aronia extracts.

B-PAC® Cherry Recovery

60 capsules

Active Ingredient	2 capsules
Tart cherry extract DER 40:1, of which:	300 mg
polyphenols 15%	45 mg
Aronvit® - aronia extract Der 70:1, of which:	100 mg
polyphenols 15%	50 mg
anthocyanis 30%	9 mg

ARONVIT® - POLYPHENOL POWER FOR PEAK SPORT PERFORMANCE

This advanced extract protects heart muscle cells and strengthens blood vessels, ensuring optimal oxygen delivery and faster recovery during the most intense physical challenges

- **Enhanced Cardiovascular Performance:** aronia extract protects heart cells and strengthens blood vessels, ensuring efficient blood flow and oxygen delivery.
- **Accelerated Muscle Regeneration:** By reducing inflammation and oxidative stress, this blend minimizes exercise-induced pain and significantly speeds recovery.

Products with Aronvit®: Melarginol®, Yanesse® B-Complex, B-PAC® B-Complex, B-PAC® Cherry Recovery

B-PAC® B-Complex

60 capsules

Active Ingredient	1 capsule
Aronvit® - aronia extract Der 70:1, of which:	100 mg
polyphenols 50%	50 mg
anthocyanis 25%	25 mg
Niacin (vitamin B ₃)	15 mg
Pantothenic acid	8 mg
Vitamin B ₆	6 mg
Thiamine (vitamin B ₁)	3 mg
Riboflavin (vitamin B ₂)	2,5 mg
Folic acid (vitamin B ₉)	200 µg
Vitamin B ₁₂	75 µg

A comprehensive formula designed for athletes, fitness enthusiasts, and individuals with physically demanding lifestyles. It combines essential B-group vitamins with natural polyphenols and anthocyanins to support energy metabolism and reduce fatigue.

B-PAC® Vitamin C

60 capsules

Active Ingredient	2 capsules
Vitamin C (liposomal)	1000 mg
Dog rose fruit extract DER 20:1	40 mg
Bitter orange fruit extract DER 5:1, of which:	40 mg
citrus bioflavonoids 60%	24 mg

Liposomal vitamin C, supported by extracts from dog rose and bitter orange fruits. It supports immunity strained by regular training, helps reduce fatigue, and protects cells from oxidative stress that occurs during exercise.

Hydrogel form, that contains 30g of dual source carbohydrates (simple and complex). This product is designed for physically active individuals – especially recommended during training and competition. It is quickly and easily digestible source of additional energy, and thanks to the optimal consistency of the hydrogel, it does not require drinking water.

B-PAC® Energy Gel

60 ml
hydrogel

Flavours: Dragon Fruit Grape Lychee Lime Cherry

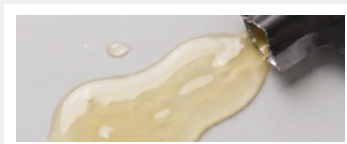

Nutrition declaration	1 hydrogel
Energy	687 kJ/164 kcal
Total Fat	1,1 g
Saturated fats	1,0 g
Medium-chain triglycerides (MCT)	0,8 g
Carbohydrate	30,0 g
Sugars	10,1 g
Protein	0 g
Salt	0,13 g
Magnesium citrate	0,06 g

Caffeinated hydrogel formula providing 30g of carbohydrates from dual sources. Developed for physically active individuals to support performance during training and competition. This easily digestible energy source features an optimal consistency that eliminates the need for water consumption.

B-PAC® Energy Gel + Caffeine

60 ml
hydrogel

Flavours: Tropical Fruits Lemon Lime

Nutrition declaration	1 hydrogel
Energy	687 kJ/164 kcal
Total Fat	1,1 g
Saturated fats	1,0 g
Medium-chain triglycerides (MCT)	0,8 g
Carbohydrate	30,0 g
Sugars	10,1 g
Protein	0 g
Salt	0,13 g
Magnesium citrate	0,06 g
Caffeine	50 mg

B-PAC® Energy Jelly

60 g
jelly bar

Flavours: ■ Banana ■ Orange ■ Energy Drink

Nutrition declaration		1 jelly bar
Energy		188 kcal/ 787 kJ
Fat		0,0 g
Carbohydrate		47,0 g
of which sugars		47,0 g
Protein		0,0 g
Sodium		0,0 g

A delicious energy snack containing a whopping 47 g of carbohydrates, ideal for consumption during training or competition. Thanks to its innovative agar-based formula, it has a light and easy-to-consume consistency – even during intense exercise. Additionally, the jelly is formulated with the most desirable glucose-to-fructose ratio of 1:0,8.

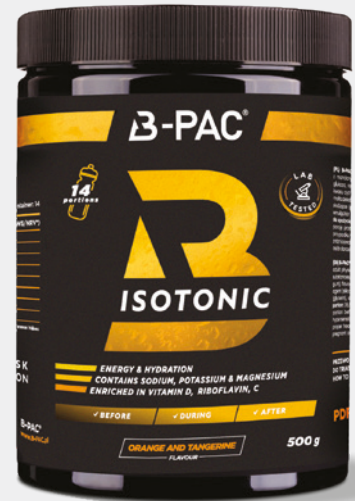

B-PAC® Isotonic

500 g
powder

Flavours: ■ Orange and tangerine ■ Elderberry and lemon

Active Ingredient	1 portion 35,5 g
Glucose	25,4 g
Sodium	344,4 mg
Potassium	304,3 mg
Calcium	121,7 mg
Vitamin C (liposomal)	101,4 mg
Magnesium	57,1 mg
Vitamin B ₂	0,7 mg
Vitamin D (liposomal)	2,5 µg / 100 IU

The powder form for preparing an isotonic drink with orange-tangerine flavour or elderberry-lime flavour, intended for physically active people.

B-PAC® Isotonic + Caffeine

500 g
powder

Flavour: ■ Watermelon and lime

Active Ingredient	1 portion 25 g
Glucose	16,7 g
Sodium	227 mg
Potassium	280 mg
Calcium	80 mg
Vitamin C (liposomal)	67 mg
Magnesium	37,5 mg
Vitamin B ₂	0,5 mg
Caffeine	100 mg

A caffeine-enriched isotonic powder with a watermelon and lime flavor, formulated to support hydration and energy levels for physically active individuals.

Lipo 4Me®

Liposomal Vitamins & Minerals

LIPOSOMAL FORMULATIONS FOR ENHANCED ABSORPTION AND BIOAVAILABILITY

Lipo 4Me® is a specialized line of nutraceuticals developed through scientific precision and proprietary laboratory expertise at AronPharma. Powered by vitamins and minerals in liposomal formulations to ensure their high absorption and improved bioavailability.

- Phospholipid bilayer of liposomes enables a stable dispersion and good availability of vitamins D₃ and K₂ without the use of lipid solvents.
- Liposomal coating protects active ingredients against harmful effects of degradation factors found in the digestive tract, including free radicals.

Lipo 4Me® line offers premium formulations for effective delivery of vitamins and minerals to the target place - the inside of the cell.

What are the liposomes?

The term liposome has been derived from two Greek words: „lipos” (fat) and „soma” (body). It refers to a spherical, microscopic-sized carrier composed of one or more phospholipid bilayers encapsulating an aqueous core (aqueous phase).

- Enhanced Absorption
- Improved Cellular Delivery
- Gentle on the Stomach
- Higher Efficiency
- Reduced Risk of Toxicity

Lipo 4Me® Iron Gummies

60 pectin gummies

Active Ingredient	2 gummies
Iron (liposomal form)	12 mg
Vitamin C	60 mg

Cherry-flavored pectin gummies in a heart shape, combining liposomal iron and vitamin C. This sugar-free formula is designed to support red blood cell production and natural immunity without the metallic aftertaste. It offers a pleasant and effective way to replenish iron levels and reduce fatigue for both children and adults.

Lipo 4Me® Iron Complex

60 HPMC capsules

Active Ingredient	1 capsule
Iron (liposomal form)	20 mg
Vitamin C (liposomal form)	80 mg
Vitamin B ₁₂ (liposomal form)	50 µg

A synergistic liposomal formula containing iron and vitamins C and B₁₂ in vegan capsules. It supports healthy haemoglobin levels, efficient oxygen transport, and normal energy metabolism. This concentrated source of nutrients helps reduce tiredness and supports the immune system, making it an ideal choice for athletes and individuals with increased iron needs.

Lipo 4Me® Liposomal Vitamin C

30 sachets direct-use powder

Flavour:  Elderberry - lime

Active Ingredient	1 sachet
Vitamin C (liposomal form)	1000 mg

Liposomal Vitamin C in a convenient direct-use powder format with a refreshing elderberry-lime flavour. It provides comprehensive support for the immune system, collagen synthesis, and cell protection against oxidative stress. This sugar-free sachet enhances iron absorption and reduces fatigue, offering a stable and easy-to-use solution for maintaining daily vitality and health.

Liposomal Vitamin C provided in vegan HPMC capsules for stable and efficient daily supplementation. This formula supports the immune system, protects cells from oxidative stress, and aids in collagen production for healthy skin, bones, and gums. Moreover, it enhances iron absorption and reduces fatigue through superior systemic uptake.

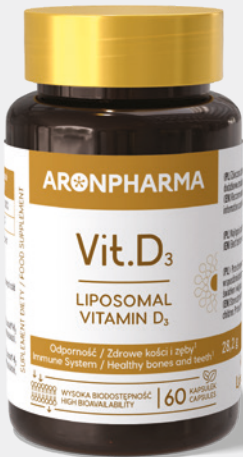

Lipo 4Me® Vit. C

60 HPMC capsules

Active Ingredient	2 capsules
Vitamin C (liposomal form)	1000 mg

Concentrated liposomal Vitamin D₃ in vegan HPMC capsules to support the maintenance of healthy bones, teeth, and muscles. It plays a vital role in immune system function and the efficient absorption of calcium and phosphorus. This formula is a year-round supplement for adults, providing reliable support for cell division and general well-being.

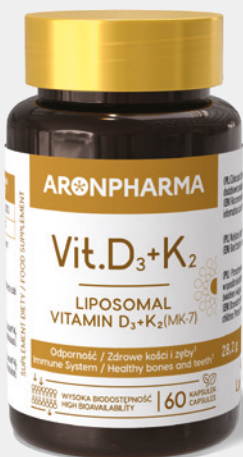

Lipo 4Me® Vit. D₃

60 HPMC capsules

Active Ingredient	1 capsule
Vitamin D (liposomal form)	50 µg / 2000 IU

A synergistic duo of liposomal vitamins D₃ and K₂ designed for optimal skeletal and cardiovascular support. Vitamin K in the form of MK7 extends half-life and offers superior tissue distribution, ensuring maximum efficacy at a lower portion size. This formula ensures proper blood coagulation and helps maintain healthy bone density and teeth. Supporting the immune and respiratory systems offers a highly efficient way to fill essential nutrient gaps and promote long-term vitality.

Lipo 4Me® Vit. D₃+K₂

60 HPMC capsules

Active Ingredient	1 capsule
Vitamin D (liposomal form)	50 µg / 2000 IU
Vitamin K (MK7) (liposomal form)	50 µg
